

There is NO BETTER TIME to save up to 20% on selected Microsoft SQL Server products when purchasing Sharepoint Server.

Improve Business Insight

Microsoft technology helps businesses drive increased profitability and improved performance with familiar, easy-to-use solutions that help turn data into real business insights and minimize the cost and risk of managing information.

Confidently rely on Microsoft technology to help you save money and be more competitive by monitoring, analysing, and reporting on business performance in order to make more informed decisions. Microsoft SQL Server provides the proven tools you need to gather data from different systems into a reporting solution that integrates with the familiar Microsoft Office system to provide an affordable way to easily analyse and act on business insights.

Purchasing SQL Server through Microsoft's [Open Value licensing solutions](#) can benefit your business' needs. Simply buy with selected Open License and Open Value Licenses before March 31, 2010, and you could save up to 20% off the Recommended Retail* of selected Microsoft® software:

SQL Server

- Up to 15% off SQL Server Standard Open Corporate with Software Assurance, if purchasing Sharepoint Server*
 - Up to 20% off SQL Server Enterprise Corporate, Open Value licensing, if purchasing Sharepoint Server*
- [See how Microsoft Open Value Licensing can benefit your business.](#)

Why Microsoft SQL Server?

SQL Server 2008 is the foundation that fast, smart, efficient businesses are built on. It can work with your existing mission critical IT systems, as well as with Oracle, DB2, SAP and NetWeaver data, cuts admin time with policy-based management, lowers costs through server consolidation and virtualization and delivers the highest levels of security, reliability and scalability. And, the self-service reporting and ease of use with familiar apps like Microsoft Office and Microsoft SharePoint means people can spend more time working and less time training and calling IT support.
