

## Tech-Ed Australia Hands-on Labs Roster

Aus Track	US Track	Title	Code
Messaging	MSG	Controlling Junk E-mail with Exchange Server 2003 Using the Intelligent Message Filter and Outlook Junk E-mail Options	HOL120(MSG03)
Messaging	MSG	Remote Connectivity to Exchange Server 2003 Using Outlook 2003 and Outlook Web Access	HOL122(MSG05)
Messaging	MSG	Administering and Using Exchange Active Sync in Exchange Server 2003 Service Pack 2	HOL123(MSG06)
Messaging	MSG	Migrating from Exchange Server 5.5/Windows NT 4 Server to Exchange Server 2003/Windows Server 2003 (Part 1)	HOL124(MSG07)
Messaging	MSG	Migrating from Exchange Server 5.5/Windows NT 4 Server to Exchange Server 2003/Windows Server 2003 (Part 2)	HOL125(MSG08)
Messaging	MSG	Migrating from Exchange Server 5.5/Windows NT 4 Server to Exchange Server 2003/Windows Server 2003 (Part 3)	HOL126(MSG09)
Messaging	MSG	Troubleshooting Exchange Server 2003 Mail Flow	HOL127(MSG10)
Security	SEC	Using Microsoft Exchange Security Features to Secure E-mail	HOL130(SEC11)
Security	SEC	Securing Exchange Server with ISA Server 2004 and IPSec	HOL131(SEC12)
Security	SEC	Using Active Directory and Group Policy to Secure Server Roles	HOL145(SEC01)
Security	SEC	Using Active Directory and Group Policy to Secure Client Computers	HOL146(SEC02)
Security	SEC	Securing Internet Information Services (IIS) and Outlook Web Access (OWA)	HOL147(SEC03)
Security	SEC	Using Microsoft Identity Integration Server to Synchronize User Identity Information and Credentials	HOL148(SEC04)
Security	SEC	Securing a Perimeter Network with ISA Server 2004	HOL149(SEC05)
Security	SEC	Implementing Messaging Security for Exchange Clients	HOL150(SEC06)
Security	SEC	Protecting Data Using Rights Management Services	HOL151(SEC07)
Security	SEC	Improving Remote Access Security	HOL152(SEC08)
Security	SEC	Deploying a Windows Public Key Infrastructure	HOL153(SEC09)
Security	SEC	Publishing Exchange Server with ISA Server 2004	HOL240(SEC13)
Security	SEC	Security Scanning using Microsoft Baseline Security Analyzer 2.0	HOL258(SEC16)
Architecture	ARC	Using the Distributed System Designers to Visually Design and Validate Service-Oriented Systems in Microsoft Visual Studio 2005	HOL001(ARC01)
Architecture	ARC	Using the Application Designer to Design Your Web Service Architecture in Microsoft Visual Studio 2005	HOL002(ARC02)
Architecture	ARC	Build a Domain Specific Language Designer Using the DSL Tools for Microsoft Visual Studio 2005	HOL004(ARC04)
Architecture	ARC	Understanding, Designing and Refactoring Code Using the New Class Designer Tool in Microsoft Visual Studio 2005	HOL007(ARC07)
Business Intelligence and Applications	BIN	SQL Server 2005 Reporting Services	HOL028(BIN01)
Business Intelligence and Applications	BIN	SQL Server 2005 Analysis Services	HOL029(BIN02)
Business Intelligence and Applications	BIN	Data Mining with SQL Server 2005	HOL030(BIN03)
Business Intelligence and Applications	BIN	Using Report Builder in SQL Server 2005	HOL031(BIN04)
Business Intelligence and Applications	BIN	SQL Server 2005 Integration Services	HOL073(BIN06)
Business Intelligence and Applications	CSI	Creating and Using Web Services with Visual Basic or C# Using Visual Studio 2005 and the .NET Framework 2.0	HOL200(CSI21)
Business Intelligence and Applications	CSI	Using System.Transaction to Write Reliable Applications	HOL204(CSI16)
Business Intelligence and Applications	CSI	Creating a Transacted Resource Using System.Transaction	HOL205(CSI17)
Business Intelligence and Applications	CSI	Using .NET Remoting	HOL207(CSI19)
Business Intelligence and Applications	CSI	How to Use Enterprise Services through the .NET Framework	HOL208(CSI20)
Business Intelligence and Applications	BAP	MBS Lab 1	-
Business Intelligence and Applications	BAP	MBS Lab 2	-

Business Intelligence and Applications	BAP	MBS Lab 4	-
Database Administration and Developer Tools	DAT	XML in SQL Server 2005	HOL064(DAT01)
Database Administration and Developer Tools	DAT	Using the New Features of ADO.NET 2.0 with SQL Server 2005	HOL065(DAT02)
Database Administration and Developer Tools	DAT	SQL Server 2005 Service Broker	HOL066(DAT03)
Database Administration and Developer Tools	DAT	Using the SQLCLR in SQL Server 2005	HOL067(DAT04)
Database Administration and Developer Tools	DAT	Programming with Server Management Objects (SMO) in SQL Server 2005	HOL068(DAT05)
Database Administration and Developer Tools	DAT	Using Web Services with SQL Server 2005	HOL069(DAT06)
Database Administration and Developer Tools	DBA	Introduction to the SQL Server 2005 Management Studio	HOL074(DBA02)
Database Administration and Developer Tools	DBA	T-SQL Enhancements in SQL Server 2005	HOL075(DBA03)
Database Administration and Developer Tools	DBA	Query Tuning in SQL Server 2005	HOL076(DBA04)
Database Administration and Developer Tools	DBA	Database Partitioning in SQL Server 2005	HOL078(DBA06)
Desktop, Smart Clients, Mobile	CLI	Data Features in Windows Forms 2.0	HOL057(CLI03)

## Tech-Ed Australia Hands-on Labs Roster

Aus Track	US Track	Title	Code
Desktop, Smart Clients, Mobile	CLI	Windows Forms 2.0 Advanced Layout	HOL058(CLI04)
Desktop, Smart Clients, Mobile	CLI	Developing Office Solutions with Microsoft Visual Studio 2005 Tools for the Office System (Part 1)	HOL059(CLI05)
Desktop, Smart Clients, Mobile	CLI	Developing Office Solutions with Microsoft Visual Studio 2005 Tools for the Office System (Part 2)	HOL060(CLI06)
Desktop, Smart Clients, Mobile	CLI	Building Solutions Using Microsoft Office InfoPath 2003	HOL062(CLI08)
Desktop, Smart Clients, Mobile	CLI	Integrating Back-End Data into Microsoft Office Applications with Information Bridge Framework	HOL063(CLI09)
Desktop, Smart Clients, Mobile	MBL	Building a .NET Compact Framework Application for a Windows Mobile-Based Device Using Visual Studio 2005	HOL100(MBL01)
Desktop, Smart Clients, Mobile	MBL	Introduction to the New Managed APIs in Windows Mobile	HOL101(MBL02)
Desktop, Smart Clients, Mobile	MBL	Developing a SQL Mobile Application with Visual Studio 2005 and SQL Server 2005	HOL102(MBL03)
Desktop, Smart Clients, Mobile	MBL	Incorporating COM Objects into Your .NET Compact Framework Application	HOL103(MBL04)
Developer Tools	DEV	Visual Studio Starter Kits and Templates	HOL084(DEV03)
Developer Tools	DEV	Changing the Visual Studio Build Process through MSBuild	HOL085(DEV04)
Developer Tools	DEV	Building Secure Web Applications with DevInspect and SecureObjects for Visual Studio 2005	HOL090(DEV09)
Developer Tools	DEV	Developing Robust and Reliable Applications with Microsoft Visual Studio 2005 Team System	HOL188(DEV10)
Developer Tools	DEV	Writing Secure Native Code with Visual C++ and Microsoft Visual Studio 2005 Team System	HOL220(DEV13)
Developer Tools	DEV	Discovering Enterprise Library	HOL221(DEV14)
Developer Tools	DEV	Custom Cultures and International Data	HOL226(DEV19)
Developer Tools	PRT	Introduction to Microsoft SharePoint Products and Technologies: Technology and Functionality	HOL136(PRT01)
Developer Tools	PRT	Administering and Managing Your Microsoft SharePoint Technologies	HOL137(PRT02)
Developer Tools	PRT	Integrating Microsoft SharePoint Products and Technologies with Microsoft Office Professional Edition 2003 Applications	HOL138(PRT03)
Developer Tools	PRT	Developing Solutions on Microsoft SharePoint Products and Technologies	HOL139(PRT04)
Developer Tools	PRT	Developing and Administering Microsoft Office Enterprise Project Management (EPM) Solutions	HOL140(PRT05)
Developer Tools	WEB	What's New with Visual Studio 2005 and ASP.NET 2.0	HOL172(WEB01)
Developer Tools	WEB	Building Data-Driven Applications in ASP.NET 2.0 Using Microsoft Visual Studio 2005	HOL173(WEB02)
Developer Tools	WEB	Building Secure Applications with Membership and Role Management Using Visual Studio 2005 and ASP.NET 2.0	HOL174(WEB03)
Developer Tools	WEB	Creating Personalizable Applications Using Web Parts with Visual Studio 2005 and ASP.NET 2.0	HOL175(WEB04)
Developer Tools	WEB	Managing Look, Feel and Layout with Visual Studio 2005 and ASP.NET 2.0	HOL176(WEB05)
Developer Tools	WEB	Using Profiles to Personalize Applications in ASP.NET 2.0	HOL177(WEB06)
Developer Tools	WEB	Building Dynamic Navigation Systems with Visual Studio 2005 and ASP.NET 2.0	HOL178(WEB07)
Developer Tools	WEB	Extending ASP.NET 2.0 with the Provider Model	HOL179(WEB08)
Developer Tools	WEB	Administration and Management with ASP.NET 2.0	HOL230(WEB09)
Windows Server and Management	MGT	Installing MOM 2005	HOL109(MGT01)
Windows Server and Management	MGT	Managing Group Policy Using Group Policy Management Console (GPMC)	HOL112(MGT04)
Windows Server and Management	MGT	Using New SMS 2003 SP1 Features	HOL113(MGT05)
Windows Server and Management	MGT	Introduction to SMS 2003	HOL114(MGT06)
Windows Server and Management	MGT	Deploying Operating System Updates Using Windows Server Update Services (WSUS)	HOL117(MGT09)
Windows Server and Management	MGT	Admin Scripting: Best Practices to Automate, Change Configuration and Diagnose Operational Problems	HOL171(MGT18)
Windows Server and Management	MGT	Managing Exchange and Active Directory with MOM 2005	HOL191(MGT10)
Windows Server and Management	SVR	Microsoft's Identity Management Solution	HOL157(SVR04)
Windows Server and Management	SVR	Developing Management Agents with the Identity Integration Server 2003 Management Agent Software Development Kit	HOL158(SVR05)
Windows Server and Management	SVR	Installing and Configuring Active Directory Federation Services (ADFS) and Windows Server System (WSS)	HOL162(SVR09)
Windows Server and Management	SVR	Clustering with Virtual Server 2005	HOL169(SVR15)
Windows Server and Management	SRV	Virtual Server Lab	-
Windows Server and Management	DSK	Virtual PC Lab	-
