Office 2016 – What's New for End Users

		2010	2013	2016
BUILT FOR TEAMWORK	**Co-author** like never before in Word, PowerPoint and OneNote.			
	Basic co-authoring (ability to edit in parallel)		●	●
	Real-time typing in Word lets you see other's' edits as they make them.			●
	Improved version history			●
	Share button in ribbon in W/X/P			●
	Thanks to **Skype in-app integration**, you can IM, screen share, talk or video chat right in your docs.			●
	Skype Meetings offers HD video, desktop sharing, co-authoring, presentations, and more.**			
	Skype Meetings		●	●
	HD Video and co-authoring			●
	Office 365 Groups now available as part of Outlook and on iOS, Android, and Windows			●
	With **OneNote shared notebooks,** you have one place to share and see up to the minute **notes, tasks, photos, videos & more.**		●	●
	Take your Office anywhere in full fidelity with a set of **Office mobile apps** across Windows, Android, and iOS.			●
WORKS FOR YOU	**Outlook 2016** is built to give you lightning fast search, remove low priority mail, and make sure everyone has the right access with **modern attachments.**			
	Outlook Clutter in 2016			●
	Most recently used documents in Outlook			●
	Modern attachments			●
	Improved autosuggest search			●
	Your **most recently used documents** list travels with you across your devices. (OneDrive for Business, SharePoint)		●	●
	Excel 2016 is the most powerful analysis tool in your arsenal			
	Integrated Power Pivot (integration new in 2016)		●	●
	Integrated Get & Transform and 3D Maps (integration new in 2016)		●	●
	One-Click forecasting			●
	New chart types			●
	Publish to Power BI			●
	Just type the word and **Tell Me** takes you directly to the feature you need. (Word, PowerPoint, Excel, Outlook, Visio, Project, Access)			●
	Smart Lookup brings insights from the web right into your Office docs. (Word, PowerPoint, Excel, Outlook)			●
PERFECT ON WINDOWS 10	**Windows Hello** logs you into your PC and Office – all in one simple step.			●
	Let **Cortana with Office 365 integration** help with tasks like meeting prep.			●
	Office Mobile apps on Windows 10. They are touch-friendly, fast, and optimized for on-the-go-productivity.			●
	Continuum & Office Mobile apps on Windows 10 phones. Use your phone like a PC to view, edit, create, or present.			●
	With **OneDrive storage** on Office 365 & Windows 10 you have the built-in, secure way to store and share all your stuff.		●	●

Microsoft

What's New in 2016 for IT

		2010	2013	2016
THE MOST SECURE OFFICE	**Data Loss Prevention helps significantly reduce the risk of leaking sensitive data, by giving IT admins tools to centrally create, manage and enforce policies for content authoring and document sharing. (Word, Excel, PowerPoint, Outlook)**			●
	Multi-factor Authentication allows you to securely access content anywhere – even when away from the corporate network. (Word, Excel, PowerPoint, Outlook)			●
	Information Rights Management helps you encrypt your data online and off.			
	Word, Excel, PowerPoint, Outlook		●	●
	Visio			●
FLEXIBLE CLICK TO RUN OPTIONS	With deferred updates, you choose when you update—once a month or every three months and validate up to four months prior to deployment.			●
	Improved integration with System Center Configuration Manager for efficient distribution of updates.			●
	New Background Intelligence Transfer Service (BITS) provides better network traffic management.			●
	Simplified activation management, with new controls in Office 365 Admin Portal that allow admins to manage device activations across users.			●
IMPROVED OUTLOOK PERFORMANCE	New Internet-friendly MAPI-HTTP protocol enhances Exchange/Outlook connectivity.			●
	Outlook is more responsive on unreliable networks with the elimination of foreground network calls.			●
	Reduced time to download messages, display the message list, and show new email after hibernation.			●
	New settings let users better manage storage by only retaining 1, 3, 7, 14 or 30 days of mail on a device.			●
