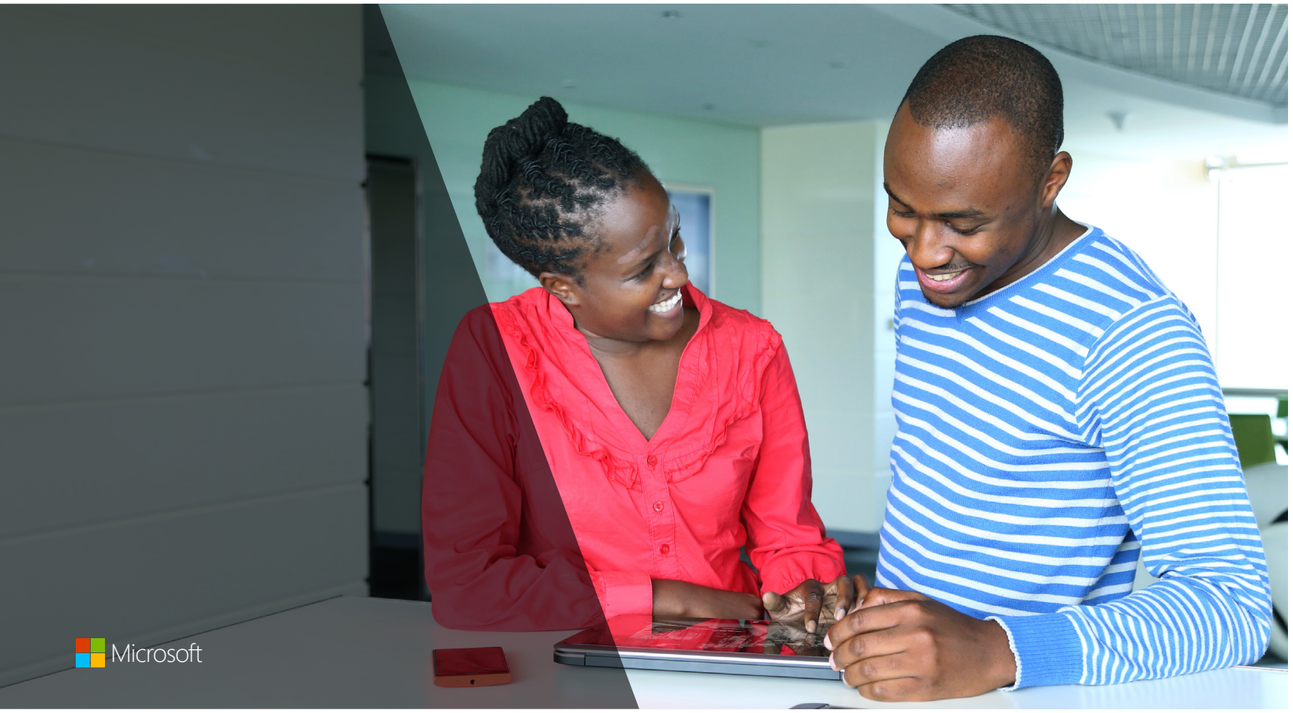
Availability

Microsoft Dynamics AX is localized, translated, and supported by Microsoft and made generally available in the countries† listed below. To learn more about supported versions of Microsoft Dynamics AX localized and/or translated by Microsoft, please refer to the product availability tables below. In addition to country-specific localizations and/or translations that Microsoft creates, our channel partners may make partner-created localizations and/or translations of Microsoft Dynamics AX available in countries where Microsoft does not provide a localized or translated version. See the Localization and Translation Summary below for more information on partner-created solutions.



Languages

Translation is the process of adapting software or documentation to meet language requirements for a particular country. For any given language, Microsoft may translate some, all or none of the user interface (UI) and documentation for Microsoft Dynamics AX. Contact your channel partner or the local Microsoft office for more information.

Microsoft Dynamics AX is translated into the languages listed below at the time of General Availability.*

Country localizations

Localization is the process of adapting software to meet country-specific laws or regulations. Microsoft localizes Microsoft Dynamics AX to include features and functionality designed to address specific tax, accounting or financial reporting requirements for various countries. Features or functionalities that are available in a particular country may not be available in all countries. Please consult your channel partner for details about product features and capabilities. Also consult them and/or your professional advisers to determine whether this software is appropriate for your business needs in a given country.

Microsoft Dynamics AX includes specific localizations for these countries.

Country localizations included at General Availability date*

Australia, Canada, Denmark, France, Germany, Iceland, Ireland, Japan, Malaysia, Mexico, New Zealand, Singapore, South Africa, The Netherlands, United Kingdom, and United States

Country localizations included in the first update*

Austria, Belgium, Brazil, China, Czech Republic, Estonia, Finland, Hungary, Italy, Latvia, Lithuania, Norway, Poland, Saudi Arabia, Spain, Sweden, Switzerland, and Thailand

Country localizations included in the second update*

India and Russia

Localization and translation overview

Organizations doing business in a particular country must comply with country-specific laws, regulations, and common business practices to handle their daily business transactions and operations and meet their legal obligations for activities conducted in the country. Microsoft recognizes that non-adherence to these laws and regulations can lead to severe consequences for an organization doing business in that country.

As an enterprise resource planning (ERP) solution, Microsoft Dynamics AX software helps organizations manage their various business processes through its extensible architecture. Microsoft extends the business process functionality of its Microsoft Dynamics AX software by developing specific commercial requirements, language, and non-vertical, national, or international functionality to address specific tax, accounting, or financial reporting requirements for countries where Microsoft makes this software generally available. The process of adapting software to meet local laws or requirements is called localization. The process of adapting software to meet language requirements is called translation.

Laws and regulations vary by country. While Microsoft Dynamics AX software "out-of-the-box" is localized and/or translated to address specific laws and/or regulations for particular countries, it is not supported in terms of localizations, translations, or technical support in all countries. Features or functionalities that are available in a particular country may not be available in all countries.

Rather, we look to our channel partners, who are an important part of our global strategy, to deliver Microsoft Dynamics AX solutions that help customers meet their compliance obligations. Channel partners may adapt the Microsoft Dynamics AX software to:

- *Supplement the base Microsoft Dynamics AX application by developing functionality to meet specific laws or regulations that are not covered by features provided "out-of-the-box" (e.g., regulations that are unique to states, provinces, cities, or municipalities in a particular country); or*
- *Create their own localizations and/or translations in countries where Microsoft does not offer a localized and/or translated version of Microsoft Dynamics AX software.*

Partner-created solutions are owned, implemented, maintained, and serviced by, or on behalf of, the originating channel partner.

Notes

1. Microsoft Dynamics AX may be available in this country as a partner-created solution at a future date. Contact your local Microsoft office for more information. In Turkey, Microsoft Dynamics AX 2012 is available through the Microsoft Dynamics Turkey Partners Alliance. Contact the local Microsoft office in Turkey for more information.

2. Contact local Microsoft offices in Thailand for information on Microsoft Dynamics channel partners that have their own product certification from the Thailand Revenue Department and for the software house ID number and the sequence number. These numbers are required for each customer installation in a live operating environment to meet the certification requirements of the Thailand Revenue Department.

3. Contact Microsoft's offices in Thailand to apply for a customer sequence number. This number is required for each customer installation in a live operating environment to meet the certification requirements of the Thailand Revenue Department.

4. The mainstream support date for Microsoft Dynamics AX 2009 has been extended to April 10, 2018. Customers who remain current on the Microsoft Dynamics Enhancement Plan will continue to receive all of the valued benefits of the Enhancement Plan, including regulatory updates and hotfixes, with the following two exclusions: (1) Support for Microsoft Dynamics AX 2009 Brazil point of sale functionality according to the PAF-ECF "ATO COTEPE/ICMS N° 6" of 14-Apil-2008 (updated by "ATO COTEPE/ICMS 51" of 29-November-2011); (2) Support for Brazil Fiscal book reporting through the integration between Microsoft Dynamics AX 2009 and the fiscal book solution licensed from SoftTeam. Customers that want to continue on SoftTeam's Fiscal Books solution must contact Sonda do Brasil S.A. and negotiate support directly. For additional details, please visit the Support Lifecycle Policy website by clicking here.

5. Additional online services are hosted by Microsoft and additional charges may apply for these services. See-http://www.dynamicsonline.com for more information.

6. For information about Fiscal printer integration and EFT availability for Microsoft Dynamics AX 2012, please access the "Brazil Localization Scope Document" at https://mbs.microsoft.com/customersource/Global/AX/learning/documentation/white-papers/ax2012r2_scopeofbrazilianlocalization0519.

7. Microsoft Dynamics AX is available with language support only. Microsoft does not offer a localized version for this country.

8. Retail localization for Microsoft Dynamics AX for Malaysia, Sweden, Poland, Czech Republic, Hungary, Latvia, Lithuania, Estonia and Brazil will be available in later updates.

9. MPOS for Win8 is not localized for Sweden, Russia and Brazil. Online Store is not localized for Russia and Brazil. Retail Essentials for Microsoft Dynamics AX 2012 R3 are available only through Retail Realm. Please contact afshin@rrdisti.com or Yasser@rrdisti.com.

**General Availability for the next version of Microsoft Dynamics AX is expected during Q1 of CY2016. The product will be updated on a regular cadence and the dates will be announced in advance through the normal Microsoft channels. If you deploy Microsoft Dynamics AX in a country where Microsoft has not made a localization available you will need to re-implement the software, at your expense, if and when Microsoft makes a localization for that country available.*
