

Try Microsoft Office Free for 60 Days

Congratulations! Your new PC comes installed with a free 60-day trial of fully-functional Microsoft Office Professional 2007.

Microsoft® Office Professional 2007. Try out these great features:

- Get better results, faster with a new intuitive user interface
- Easily find, create, and manage business documents and data
- Manage all your contact information and sales leads in one place
- Create, publish, and manage professional quality publications in-house

Getting started is easy. Just follow these simple steps:

1. Click **Start** from your Windows Vista™ operating system desktop.
2. Point to **All Programs**, then point to **Microsoft Office** and then click on the specific Microsoft Office program you want to start, for example Microsoft Office Word 2007.
3. You will be prompted to activate your trial software. To request your trial key, please visit: www.microsoft.com/office/pctril2007.

Activate now and decide later. If you decide to buy a full-product license for one of the Microsoft Office suites listed below, come back to us for a better price!

You won't have to install the Microsoft Office suite yourself — but only if you buy from us! The full version of the suites you want is already installed on your PC. We will sell you a license kit that includes the product key to unlock your full-product software. It's so easy!
