

Thursday night. Kevin is putting in long hours finishing a key feature, visualizing the code as a physical environment. He has forgotten that the beta version is now live - and open to the outside world!

THAT SHOULD JUST ABOUT DO IT...

HELLO, HANDSOME.

WHAT THE...? WHO ARE YOU?

MY NAME IS JUAREZ. SPY JUAREZ. AND THIS IS MY ASSOCIATE...

I GO BY MANY NAMES... PERHAPS, THE DEPOSED FINANCE MINISTER OF A SMALL AFRICAN NATION... OR A SOLICITOR FOR A WORTHY CHARITY... BUT YOU MAY CALL ME THE SOCIAL ENGINEER.

SPY WAREZ? SOCIAL ENGINEER? IS THIS SOME KIND OF A JOKE?

VERY NICE WORK. IT WOULD CERTAINLY BE TRAGIC IF ANYTHING WERE TO... HAPPEN TO IT.

HEY, THIS IS A SECURE SERVER. HOW DID YOU GET IN HERE?

I HITCHED A RIDE ON A PHOTO-TAGGING APPLET THAT ONE OF YOUR BOSSES INSTALLED OFF THE INTERNET.

AND ONE OF YOUR COLLEAGUES WAS KIND ENOUGH TO ASSIST ME IN A BUSINESS VENTURE AND PROVIDED ME WITH THIS...

THE SECURITY ACCESS CODES! NO - YOU CAN'T!

OH, BUT WE CAN.

AND NOW, YOUR APPLICATION IS AT OUR MERCY!
