

STUDENT ACTIVITY 1.6 KEY

MTA Course: Web Development Fundamentals
Lesson name: Web Development Fundamentals 1.6
Topic: Understand configuration files.
File name: WebDevFund_SA_1.6_Key

Lesson Objective:

1.6: Understand configuration files. *This objective may include but is not limited to:* Understanding the usage of Web.config and Machine.config, and the settings that can be made.

1. Visit the following link and answer the following questions.
<http://support.microsoft.com/kb/815179#3>
 - a. What type of file is a Web.config file? ***XML***
 - b. List two tags that are needed for the file to function. ***<configuration>, <system.web>***
 - c. True or False:
A Machine.config file contains settings that override the Web.config file. ***False***

The remainder of the activity does not require a key. The code provided in the student activity document is sufficient for successfully completing the tasks.
