

STUDENT ACTIVITY 1.3

MTA Course: Web Development Fundamentals

Topic: Understand state information in Web applications

File name: WebDevFund_SA_1.3

Lesson Objective:

1.3: Understand state information in Web applications. *This objective may include but is not limited to:* understand how state is stored based on application design and hardware; understand different types such as session state, view state, control state, and application state

Resources, software, and additional files needed for this lesson:

- Microsoft Visual Basic 2008[®], Express Edition
- Microsoft Visual C# 2008[®], Express Edition
- Microsoft Visual Web Developer 2008, Express Edition
- WebDevFund_SA_1.2
- Use this site for additional information:
