

## Gov 2.0 add-ons and resources

Free tools that extend your Microsoft platform with the latest social features

Discover new ways to bring the promise of Gov 2.0 to life by extending the Microsoft platform and products you already have. Here you'll find links to free add-ons and resources designed by Microsoft and the Web 2.0 community for Windows, Windows Live, Microsoft Office SharePoint Services, and Windows Mobile.

The following are publicly available links, which include terms of use, to various Microsoft and Microsoft-related software, tools, and documentation, for use and access by the U.S. government. These links may be revised from time to time.

### Windows add-ons

Find new ways to open a vibrant dialogue with citizens and among agencies. These add-ons enrich Windows with Web-based communication, collaboration, and connection.

#### Live Mesh

Sync, share, and access the information you care about—wherever you happen to be.

<http://www.mesh.com>

#### Microsoft Photosynth

Take a group of photos, and create a *synth*—one big, interactive, 3-D viewing experience that you can share.

<http://photosynth.net/>

#### Microsoft Tag

Create a tag for your print media that your audience can scan wirelessly to gain fast mobile access to information online.

<http://www.microsoft.com/tag/>

#### Microsoft Thumbtack

Collect lists, notes, and all the stuff you want to save or share from around the Web.

<http://thumbtack.livelabs.com/>

#### Microsoft Vine

Keep tabs on family, friends, activities, and major events in your community with this location-based dashboard.

<http://www.vine.net/>

#### Pixelpipe

Publish your digital photos, videos, and other content to more than 75 social networks through Pixelpipe.

<http://pixelpipe.com/tools>

#### WorldWide Telescope
