

Microsoft® Enterprise CAL Suite

Client Access License

Your path to a people-ready infrastructure

What is the Microsoft Enterprise CAL Suite?

The Microsoft® Enterprise Client Access License (CAL) Suite brings together 11 of the latest Microsoft products to provide your organization the newest innovations in compliance, real-time collaboration, security, communication, desktop management, and more. The Microsoft Enterprise CAL Suite is a great opportunity for you to extend the value of your existing investments in the Microsoft core platform.

Enterprise CAL Suites Benefits

Flexibility

- Grants your organization the rights to use an array of industry-leading Microsoft innovations in collaboration, security, compliance, and communication.
- Extends the value of your organization's current investments in Microsoft Windows Server® 2003 with products and services that integrate into your existing infrastructure platform.
- Gives your organization the flexibility to deploy multiple Microsoft server products as your business needs require without waiting to negotiate new licensing agreements.

Simplified licensing

- Easier than managing multiple technology licenses.
- Eliminates the hassle associated with negotiating multiple agreements with multiple vendors for different technologies.
- Consolidates your relationship with Microsoft within a single license covering the rights to use many Microsoft technologies.

More value for your money

- Provides industry-leading capabilities at cost-effective pricing points.
- Packages cutting-edge Microsoft technologies together at prices lower than purchasing individual Microsoft product CALs.
- Consolidates the costs of integrating, deploying, and managing disparate product lines by adopting the Microsoft family of integrated solutions.

Key Business Capabilities Enabled

- Get anywhere access to your communications
- Connect your global business
- Share knowledge and collaborate
- Provide enterprise security protection
- Enforce compliance
- Increase visibility into desktop productivity and security
