Customer Reviews

★ ★ ★ ★ ★ **Finally, the perfect travel application!** *A reviewer from London, UK*

"Wow. Fizz have outdone themselves! This is probably the most useful application on my device, and, in terms of functionality and price, it blows all it's competitors out of the water! Just look at all the functions available: alarm clock (including a quick alarm feature, which is brilliant), world time and weather, customisable today plug-in, travel itinerary which integrates into calendar, converters for currency, clothing and other parameters, LIVE FLIGHT STATUS (which is extremely accurate, easy to use, and much cheaper than it's closest competitor), dial codes, stopwatch....basically everything you could want or need if you travel, whether on business or for pleasure. Their support is also fantastic! No wonder Fizz always rises to the top..."
