

GROWTH

*Microsoft Dynamics GP Standard –
Build your business with a solution designed for growth*

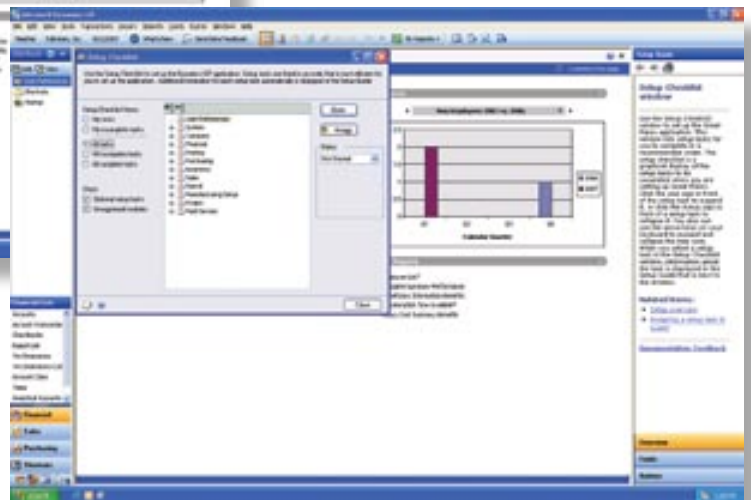

Build your business with a solution designed for growth

When you make the decision to move to a new financial management solution, you make a significant commitment that demands a strong return on time, effort, and cost. Microsoft Dynamics™ GP Standard offers a world-class business management solution that your people will know how to use from the start, packaged and priced for smaller companies on a growth path. Designed to help ensure immediate gains in productivity and accuracy, Microsoft Dynamics GP Standard works like and with Microsoft® Office and utilizes proven, powerful Microsoft technologies to streamline and integrate information, processes, and reporting capabilities across your entire business. Just as important, Microsoft Dynamics GP Standard makes it easy and cost-effective for you to pace your growth and add the capabilities you need, when you need them.

Get started fast with setup checklists that offer clear instructions and help ensure that no steps are missed in the setup process.

Microsoft Dynamics GP Standard offers a roles-based user interface that looks and feels like Microsoft Office Outlook®, and empowering users to work with the information that's most relevant to their role in your organization.

Benefits

EXPERIENCE RAPID RETURN ON INVESTMENT

Microsoft Dynamics GP Standard is designed for companies with fewer than 100 employees and fewer than 10 concurrent users. Setup checklists simplify the installation process, helping ensure that you are up and running quickly.

EQUIP YOUR PEOPLE WITH A SOLUTION THEY ALREADY KNOW HOW TO NAVIGATE

Whether employees are working in Microsoft Dynamics GP Standard or Microsoft Office, they get the look and feel of Microsoft Office Outlook, along with the ability to work seamlessly with Microsoft Office Excel®, Microsoft Office Word, and other Office applications they already know well.

SIMPLIFY ALL YOUR BUSINESS OPERATIONS

You gain integrated general ledger, payables and receivables management, cash management, and forecasting features — plus deep functionality that spans distribution, payroll and HR, reporting, and project management capabilities.

MAKE SENSE OF BUSINESS INFORMATION QUICKLY AND ACCURATELY

Whether you're drilling down for detail on invoices, evaluating revenues, or managing project resources, you can count on current, integrated information. A broad range of reporting and analysis tools equips your people to analyze and distribute the right information to the right people.

TAKE ADVANTAGE OF MICROSOFT TECHNOLOGIES DESIGNED FOR SMALLER BUSINESSES

Use Microsoft Windows® Small Business Server 2003 with Microsoft Dynamics GP Standard for rapid setup and affordable, enterprise-quality data management and business networking.

INSIGHT

Streamlined Functionality, with Room to Grow

Build a solution that meets your specific needs: license the functionality and number of users that you need now, and then expand easily as your business needs change and grow.

INVEST IN YOUR FUTURE WITH POWERFUL MICROSOFT TECHNOLOGIES

You want to spend your time focusing on your business, not on IT issues. Because Microsoft Dynamics GP Standard works with flexible, scalable Microsoft technologies, you can reap the benefits of tools that free you to focus on growth — rapid installation processes, robust, automated data management, and the opportunity to establish a full business network for communication and collaboration.

Gain an easy entry into Microsoft SQL Server™ technologies with Microsoft SQL Server Desktop Engine (MSDE). Included with Microsoft Dynamics GP Standard, MSDE offers robust data storage and management and a stable platform for growth.

When you're ready, you can step up to enterprise-quality data management and powerful networking capabilities — easily and affordably — by using Microsoft Dynamics GP Standard with Windows Small Business Server 2003.

TWO SOLUTIONS — ONE POWERFUL, EASY-TO-USE BUSINESS MANAGEMENT SYSTEM

Get started fast: Windows Small Business Server 2003 enables rapid, straightforward installation of your Microsoft Dynamics GP Standard solution.

Step up to the full version of Microsoft SQL Server, including integrated data management tools and optimal levels of server performance and reliability.

Communicate and collaborate effectively with employees, customers, and suppliers using the networking and e-mail management capabilities of Windows Small Business Server 2003.

Enable remote users to access e-mail and desktops — and allow administrators to manage the server remotely — using Remote Web Workplace in Windows Small Business Server 2003.

Help improve teamwork and performance with Microsoft Windows SharePoint™ Services. For example, you can include Microsoft Dynamics GP Standard sales and inventory information in your Windows SharePoint Services pages to keep employees up to date on business conditions.

Share the right information, applications, and processes with the right people — regardless of location — by providing employees, partners, and customers with immediate, Web-based access to Microsoft Dynamics GP Standard data.

“Microsoft SQL Server is an incredibly stable platform. It's never crashed, we've never had to run file maintenance on it and we've never had corrupt records. And our IT folks just love it!”

DAVE ROOT CHIEF FINANCIAL OFFICER **EAGLE'S FLIGHT**

CUSTOMER FOR LIFE

Count on Microsoft Dynamics GP Standard to grow along with your changing needs. If you decide to upgrade to Microsoft Dynamics GP Professional, you can take advantage of a seamless migration path — without the hassles of data migration or learning a new system — and receive full credit for your Microsoft Dynamics GP Standard license.

AWARD-WINNING SERVICE AND SUPPORT

Recognized as one of the most responsive and innovative service teams in the industry, Microsoft Dynamics backs your investment in Microsoft Dynamics GP Standard by working with your local Microsoft partner to offer remarkable training and support services. Regardless of which support plan you choose, you'll receive software updates and 24/7 access to CustomerSource, a Web site designed to enhance your productivity.

TRANSFORMATIONAL ASSURANCE

A unique benefit of the Enhancements Plan is Transformational Assurance. When you license Microsoft Dynamics GP Standard and stay current on the Microsoft Dynamics Enhancement Plan, Transformational Assurance will help you move to the future Microsoft Dynamics business application suite without having to repurchase the functionality you already licensed. Any functionality equivalents between current and future solutions are included as part of the Enhancement Program.

Microsoft Dynamics™

Microsoft Dynamics is a line of business management solutions that automate and help improve financial, customer relationship, and supply chain management. Delivered through a network of Microsoft partners, these integrated, adaptable solutions work like and with familiar Microsoft software to streamline processes across an entire business.
