

Motorola V600 Bluetooth Connections

You can use the Microsoft® Wireless Transceiver for Bluetooth® to transfer files, contacts, and other information between your Motorola v600 mobile phone and your computer. For this to work correctly, you must first configure the computer and mobile phone to communicate with each other.

This document will help you configure your computer and your mobile phone to communicate over a Bluetooth connection, and step you through synchronizing your data.

These instructions assume that:

- You have already set up and configured your Microsoft Wireless Transceiver for Bluetooth on your computer.
- You have purchased Mobile PhoneTools 2.0 (sold separately) to use with your Motorola mobile phone.
- You are running Microsoft Windows® XP with Service Pack 2 installed.

To configure your phone for Bluetooth connections

- 1 Press **Menu**, press **Settings**, press **Connection**, press **Bluetooth Link**, and then press **Setup**.
- 2 (Optional:) Enter a custom name for your phone, and then press **OK**.
- 3 Set **Power to On**.

To add your phone as a paired Bluetooth device to Windows

- 1 On your computer, click **Start**, click **Control Panel**, click **Printers and other Hardware**, and then click **Bluetooth Devices**.
- 2 On the **Devices** tab, click **Add**.
- 3 On your mobile phone, press **Menu**, press **Settings**, press **Connection**, press **Bluetooth Link**, press **Setup**, and then press **Find Me**. Your phone will be discoverable by your computer for 60 seconds.
- 4 On your computer, click **My device is set up and ready to be found**, and then click **Next**.
- 5 Follow the instructions in the Add Bluetooth Device Wizard to install your mobile phone. When prompted, you will need to enter a passkey on your mobile phone to accept the connection from your computer.
- 6 Your computer will detect your phone and add support for your phone's services. Click **Finish** when prompted to exit the Add Bluetooth Device Wizard.

To install Mobile PhoneTools 2.0

To use Mobile PhoneTools with your Microsoft Bluetooth Transceiver, you must run the Phone Setup Wizard on your computer. Follow the instructions below:

- 1 Start the Mobile PhoneTools setup from the enclosed CD-ROM.
- 2 Follow the setup instructions on the included Getting Started page, stopping when you get to the Phone Setup Wizard.
- 3 When asked how you will be connecting your phone to the computer, click **Bluetooth**.
- 4 When prompted for the type of Bluetooth adapter, click **Use another Bluetooth adapter installed**.
- 5 Click **Finish** to close setup and start Mobile PhoneTools 2.0.

The program will start and connect to your phone.

When the icons on the side of the PhoneTools display are active, you are ready to use your phone to synchronize your contacts, calendar, and messages.

Troubleshooting Tips
