

# Modernise your IT environment with payment solutions from Microsoft Financing

Today, Financial Services companies face security threats, stricter regulation, plus a drive to improve customer engagement. There is a critical need to update and integrate disparate legacy systems into a modernised, adaptable IT solution that can support these challenges.

With a range of simple and flexible payment solutions, **Microsoft Financing** can help your organisation tackle the extensive investment and cash outlay required to adopt next generation capabilities.

Tailored plans that match your modernisation strategy

Comprehensive payment solutions cover software, services, and hardware needs

Acquire the powerful, flexible, and mobile IT systems you need

## Success story

**Customer:** A major Australian bank.

**Challenge:** IT budget constraints threatened to delay modernisation of their IT environment.

**Solution:** A tailored Microsoft Financing plan enabled the bank to get the complete solution they wanted, instead of being limited by their current year's budget.

**Return On Assets:** *some companies prefer to migrate IT expenses from their balance sheet to their income statement.*
