

Not all students wish the school day was shorter.

Navigate your way through school with **Windows Vista**.®

Vista's entire operating system is built around connectivity and learning. So you can look forward to:

- Personal computing that makes you more productive
- Intuitive interface and graphics
- Greater security for file sharing, saving, and searching

Take the work out of homework. Use **Microsoft**® **Student with Encarta Premium**.

Now every student can have a personal tutor—a suite of homework tools to help them succeed, including:

- Trusted, up-to-date content
- Templates, tutorials, and toolbars
- Foreign-language help and book summaries

Learn to love algebra (it's true!) with **Microsoft**® **Math**.

Visualize mathematical concepts as you never have before. It includes:

- A full-featured graphing calculator with 2D and 3D color images
- Formula and Equation Library
- Help with pre-algebra, algebra, trigonometry, physics, chemistry, and calculus

Microsoft®

Engage students in their own success with great resources from Microsoft. For more information, visit www.microsoft.com/education
