## Airports, Railways, and Ports

*We are excited to explore the possibilities of moving to Office 365 as part of our strategy to improve communications and collaboration.*

- Dr. Sebastian Saxe, Chief Information Officer, Hamburg Port Authority

## The Challenge

With employees managing operations across a vast port territory, HPA recognized a need to improve employee productivity by adopting more modern devices with access to Microsoft Office tools.

## The Solution

HPA upgraded to Microsoft Office 365 ProPlus because it is easy to deploy and update, supports anywhere access, and runs on the most modern devices—including Windows 8 touch-enabled devices.

## The Impact

- Enables mobility strategy
- Reduces deployment hours by 75 percent
- Reduces business disruption
- Improves emergency response
