This data map describes where Microsoft stores customer data in the course of providing Office 365 services for customers located in the **Japan region**. Specifically, this map provides information regarding the locations of datacenters and corresponding services for customer data stored in Office 365 in **Japan**. Microsoft replicates customer data in at least two datacenters at any given time for reliability and availability.

*Customers who signed up and selected Japan for the Office 365 services before December 12, 2014 will have data located in Microsoft Asia-Pacific datacenters unless they have been otherwise notified of a data move (for more information visit <http://aka.ms/move>).
