

Associate Showcase School

Recognizing Education Innovation

At Microsoft, we believe that technology alone cannot develop the 21st century skills students require. Technology is an accelerator, but alone it does not enable change. We believe in the power of schools and the impact school leadership can have when they are brought together around a community of professional practice.

The Microsoft Associate Showcase Schools program is an initiative to support whole school transformation by helping build leader and teacher capacity. As an Associate Showcase School, leadership teams connect with global institutions who are exemplary in their use of leveraging digital technologies and share best practices that impact leading and learning and that drive business efficiencies.

Microsoft Associate Showcase Schools are schools that have begun a process of transformation implementing Microsoft solutions such as Office 365 or Windows 8/10. Their leadership is keen to explore new approaches to utilize technology solutions to drive innovation and improve learning outcomes and is working toward a school ecosystem that enables personalized learning amplified by 1:1 deployments.

Opportunities

When schools become Showcase Schools, they receive:

- Recognition and promotion via social media and other Microsoft channels
- Inclusion in an exclusive global online professional community for the entire leadership team of the school
- Opportunities to connect with Showcase Schools both locally and globally to innovate and collaborate on shared projects
- Opportunities to share their expertise with world-renowned educators and specialists to scale their innovations
- Invitation to Microsoft's global EduCast Webinar series (<http://aka.ms/educast>)
- Promotional materials including digital signage, signatures, and other resources
- Support for the work of their Microsoft Innovative Expert Educators

Apply now

To apply to the Associate Showcase School Program contact your local Microsoft representative or email us at empower@microsoft.com.

Who can be an Associate Showcase School?

The Associate Showcase School community welcomes public, private, regional, metropolitan K-12 (primary/secondary) schools from all geographical regions.

An Associate Showcase School has a leadership team motivated to foster 21st century skills and to utilize digital technologies for improvement of learning.
