

Microsoft Health Innovation Awards 2019 – Entry Form

Submission Deadline: 5:00 PM PST, Friday, January 18th, 2019

This document is for the sole purpose of reviewing the submission form prior to entering online. ALL entries **must** be submitted [online](#).

The **Participant Release Form** **must** be signed by **BOTH** Partner/ISV/VAR (if Partner/ISV/VAR is involved – the entry is not built in house by customer) **AND** customer, then scanned and emailed to [Monika Skibeness](#).

See [Official Rules](#) for complete details as there are very specific criteria including – you may only enter one solution per category per Company and all submissions must be installed and active for a minimum of 30 days. Also any Partner/ISV/VAR entering the Microsoft Health Innovations Awards must do so jointly with a customer (Partner may fill out application with approval from customer).

Microsoft employees may not enter the awards. See rules and regulations for more details.

ATTENTION PUBLIC SECTOR EMPLOYEES: If you are a government or public education employee, all prize awards will be awarded directly to your public-sector organization/Institution upon receipt of a gift letter signed by your Agency/Institution's ethics official.

Entry/Solution Name:	
-----------------------------	--

One (1) winner will be awarded in each of the following categories. You must select one of the categories below to enter. You may only select **one** category – the one that is most appropriate to your solution.

Engage Your Patients

Enable more efficient access to care, reduce delays in the care experience, and maintain contact with patients once they leave the care setting.

Scenario examples include:

- **More efficient access**
- **Enhanced engagement**
- **Continuous engagement**

Empower Your Care Teams and Employees

Tools that help care teams be more productive and collaborate more effectively.

Scenario examples include:

- **Virtual care**
- **Care team collaboration**
- **Care coordination**
- **Employee engagement and retention**
- **Clinical analytics**

Optimize Your Clinical Operational Effectiveness

Convert data about patient and populations into intelligent action that prevents emergencies and promotes wellness.

Scenario examples include:

- **Quality improvement**
- **Population health**
- **Operational and financial efficiency**

Transform the Care Continuum

Connect smart devices to the Microsoft Cloud to gain valuable insights into how to treat patients and manage operations.

Scenario examples include:

- **Remote patient monitoring**
- **Precision medicine**
- **Managing devices and facilities**

Artificial Intelligence and Machine Learning

Connect data to analytics and machine learning algorithms so it can help predict patient health trajectories, monitor population wellness, pull insights from research, and identify concrete ways to improve day-to-day operations.

Scenario examples include:

- **Artificial Intelligence**
- **Machine Learning**

Outstanding Innovation

Use this category if your solution does not fit into the categories above, or fits into one of the scenarios below

- **Industry Disruption**
- **Security**

SOLUTION QUESTIONS

<p>Deployment Status* <i>(note: solution must be deployed at least 30 days and not in beta form).</i></p>	<p><input type="checkbox"/> 0-3 months <input type="checkbox"/> 3-6 months <input type="checkbox"/> 6 – 12 months <input type="checkbox"/> > one year</p>
<p>Organization* (max. 150 words) Details about the health or life sciences organization, outlining as is applicable – services provided, annual revenue, and geographic area serviced, the number of beds, etc. This information is to help the judges become familiar with the customer.</p>
