

## Authorized Mobility Partners

Customers can choose either Microsoft Azure or an Authorized Mobility Partner to utilize the benefits of License Mobility through Software Assurance. On the following pages is a current list of partners who are authorized to assist Microsoft Volume Licensing customers to deploy their dedicated application server workloads using License Mobility through Software Assurance.

Please check with Microsoft Azure or these partners to confirm which services they offer and if they serve your region. If your partner is not currently listed, refer them to the [License Mobility through Software Assurance website](#) to complete the Microsoft License Mobility Partner Authorization process.

For more information, contact your Microsoft account manager or [preferred reseller](#).

Note to Partners: If your information below needs to be updated, please contact your Services Provider License Agreement (SPLA) reseller.
