## 6-months Introductory Promo\*

- **\$2.50/user/month** for all customers
- **\$1.50/user/month** for Office with SA or Office 365 ProPlus customers

Shipped  
April 2014

## Alternate Login ID removing dependency on User Principal Name (UPN)

The reliance on UPN has been removed and you can now select an alternate login ID for use with Office 365 and Azure AD in general. Use of UPN will still be the default. Through configuration you can select the Mail attribute or any other attribute in your on-premises Active Directory.

This works with either synchronized identity or federated identity.

# DLP Policy Tips in OWA for Devices

Jun 2014

# Document Conversation UPDATED

Inline editing keeps the user in the flow of the conversation

Integrates Yammer and OneDrive for Business into a seamless collaboration experience

The screenshot displays the Office 365 interface. On the left, a navigation pane shows a list of documents, with 'Sierra Windcutter Series' selected. The main area shows a Microsoft PowerPoint Web App slide titled 'Sierra Windcutter Series Rugged Outdoor Jackets' for 'November 2013'. The slide features a photo of two hikers in a canyon and a blue sidebar with the date. Below the slide, a 'Click to add notes' bar is visible. At the bottom, a 'Invite Members to Collaborate' button and '1 Person Editing' status are shown.

On the right, a Yammer conversation is displayed:

- Ryan Danner posted in Global Sales**  
Team, this is the deck from the Sierra Pitch presentation this morning as well as the linesheet. For those of you who may have missed it, I encourage you to read through this as it outlines our sales plan for the upcoming year.  
cc: Jeff Phillips  
Like • Reply • Share • More • 2 hours ago
- Michiyo Sato**  
This is great. Jeff Phillips OK to repurpose this for the east coast sales planning session next Monday?  
2 hours ago • Like • Reply • Share • More
- Jeff Phillips in reply to Michiyo Sato**  
Sure thing - this can and should be applied globally across all of our sales teams.  
2 hours ago • Like • Reply • Share • More

Below the Yammer conversation, a comment reads: 'recent wins we can learn from?' followed by 'cc: Jeff Phillips'.

Targeted  
H2 CY2014

# Codename Oslo

The first app to use the power of the Office Graph

A new way to search and discover content across O365 based on personalized insights.

Oslo will be available as a Windows 8 app, as well as in mobile devices and integrated in the Office 365 web experience

## Codename Oslo

# Office Graph

*Office Graph* is a underling technology and a suite-wide intelligence fabric that will help you discover and make new connections.

The Office Graph represents a collection of analyzed signals via machine learning, also called insights. These new insights are derived from each users' behavior, their relationships to content, topics and one another.

Content and signals are captured from Exchange Online, SharePoint Online, and Yammer.

Targeted  
H2 CY2014

# Increasing OneDrive for Business Storage to 1TB

Increased storage to 1TB from 25 GB for OneDrive for Business and team sites
