

**STUDENT ACTIVITY 1.5_KEY: UNDERSTANDING NETWORK
TOPOLOGIES AND ACCESS METHODS**

MTA Course: 98-366 Networking Fundamentals

Topic: Understand network topologies and access methods

File name: NetFund_SA_1.5_Key

Lesson Objective

1.5: Understand network topologies and access methods. *This objective may include but is not limited to:* star, mesh, ring.

Directions to the student

Use the mind map during the PowerPoint® presentation to record information about the different types of network topologies. Be sure to include information about which topology types are appropriate for various situations.
