

**STUDENT ACTIVITY 1.5: UNDERSTANDING NETWORK  
TOPOLOGIES AND ACCESS METHODS**

MTA Course: 98-366 Networking Fundamentals

Topic: Understand network topologies and access methods

File name: NetFund\_SA\_1.5

**Lesson Objective**

**1.5:** Understand network topologies and access methods. *This objective may include but is not limited to:* star, mesh, ring.

**Directions to the student**

Use the mind map during the PowerPoint® presentation to record information about the different types of network topologies. Be sure to include information about which topology types are appropriate for various situations.

# Mind Map
