Silverlight Customer Story

您的潜力, 我们的动力

careerbuilder.com™

Applicant Explorer
www.careerbuilder.com

- 1.6 Million jobs posted
- 23 Million Users/month
- Rich Internet Application
- Integrates Silverlight and Live Search
- Searching 30 million resumes
- Integration with Social Networking sites
- Rapidly narrows candidate search
- Dynamically sort by content type
- Scheduled for release in 2009

"Applicant Explorer is designed to provide employers with a more complete picture of an applicant by pulling information from a variety of sources to highlight skills, experience and accomplishments. Working with Microsoft Silverlight gives us the ability to easily load, sort, filter and page data so recruiters can dynamically sift through large amounts of data quickly and easily. We expect the application will introduce a greater efficiency and depth of knowledge into the overall recruitment experience."

Greg Brass, Director, Profile Search, Careerbuilder.com

Silverlight Customer Stories

Silverlight Customer Story

Perfect Car Finder
www.kbb.com/KBB/PerfectCarFinder/PhotoEdition.aspx

- Trusted resource for Auto industry pricing
- 12 Million website visits per month
- RIA enables customers to find perfect car
- Rich Silverlight Controls
- DeepZoom photo explorer
- 2 months, 1 developer
- ASP.NET Ajax, Visual Studio, 64-bit Windows Server and IIS, SQL Server

"Although the customer experience delivered by our Silverlight client is entirely new, the technology we used to deliver that experience was already familiar... **a C# developer who had never used Silverlight before was able to deliver a mockup in just two days without learning any new skills or tools and complete the project in less than two months.** Some people believe that Silverlight is just the Microsoft version of Adobe Flash, but we could never have used Flash to deliver what we did in only eight weeks."

Andy Lapin, Director of Architecture

Silverlight Customer Stories

Silverlight Customer Stories

nymag.com

Where's Rogan? Campaign
nymag.com/rogan

- Interactive video series
- New model for advertising/brand promo
- Eyewonder in-stream ad platform
- Akamai media player framework
- Interaction rates 10% higher

"This joint project produced a richer, more engaging ad experience for viewers and proved a great example of how sites can monetize their video content and create new advertising space."

Ricky McClellan, CIO of EyeWonder

Silverlight Customer Stories

The image is a presentation slide titled "Silverlight Customer Story" with a blue background. On the right, there is a 3D rendering of a computer monitor displaying the Netflix website, which has a red background and the Netflix logo. Above the monitor, the Chinese text "你的潜力. 我们的动力" (Your potential. Our motivation) is visible. On the left, there is a white rounded rectangle containing the Netflix logo and the text "Instant Streaming" and "www.netflix.com". Below this, a bulleted list of features is provided. At the bottom of the white rectangle, a quote from Steve Swasey, Netflix VP of Corporate Communications, is displayed in a smaller font. The quote describes how Netflix chose Silverlight for its streaming service. The overall design is clean and professional, using a mix of blue, white, and red colors.

Silverlight Customer Story

你的潜力. 我们的动力

Instant Streaming
www.netflix.com

- World's largest online movie rental service
- 10 Million Subscribers (Feb 2009)
- 12,000 Movies and TV episodes
- Instantly stream movies to PC and Mac
- PlayReady DRM for content protection
- Timeline navigation; rewind, fast-forward
- Faster, more robust connection

"Netflix chose Silverlight because it makes a faster and more agile development environment possible, allowing Netflix to quickly deliver a superior instant watching experience to our subscribers. When Netflix deployed Silverlight last fall, Netflix members realized a richer experience of access and quality to instantly watch movies and TV episodes from Netflix on their PCs and, for the first time, were able to instantly watch the same content on their Intel-based Macintosh computers."

Steve Swasey, Netflix VP of Corporate Communications

Silverlight Customer Stories

Expression Blend 3 新突破

通过VS Team Foundation Server进行源码控制

Teams can access **Team Foundation Server** directly from Expression Blend ensuring they can **collaborate effectively with the rest of the team**; work is versioned, tracked, backed-up and above all safe.

Expression Blend 3 新突破

设计界面扩展

Custom project and item templates, custom context menu items, custom adorners on the design surface when a designer selects a custom component, and enhanced support for VS2010 extensibility APIs all help provide a [fluid design and development environment](#)
