Benefit 1

Create multiple learning spaces for powerful collaboration between classes & schools

Benefit 1

Collaborative learning spaces

Uses SharePoint

- Easy templates for creating school intranets
- Create communities for teachers and interest groups
- Create blogs
- Share files and media
- Add announcements and events
- Can be expanded to handle school administration processes
- Can allow external access (parents)

The screenshot shows a Samsung tablet displaying a SharePoint intranet for Contoso K-12 College. The interface includes a top navigation bar with icons for Portal Home, Mark my Rolls, Search, Student Reports, School Calendar, and IT Support. The main content area features a personalized greeting for Alex Darrow, a 'School Announcements' section with three items: 'Federation Meeting at Lunchtime Today', 'Muffins for sale in the canteen annex today - \$2', and 'Year 9 Football Trials - Wednesday lunchtime'. Below this is a 'My Activity Feed' section with a 'Share with everyone' dropdown and a 'Start a conversation' input field. On the right side, there is a 'School News' section with a photo of a person writing in a notebook and a text overlay about workshops. Below that is an 'Important Links' section with buttons for Policies, DEECD, Faculties, and two Link buttons. At the bottom, there is a 'Principal's Blog' section with a small profile picture and the text 'The latest from the Principal'.

Benefit 1

Create a class collaboration site Make it work for you!

The screenshot shows a Samsung tablet displaying a Microsoft Office 365 class collaboration site. The site is for 'contoso K-12 College' and is titled 'Year 7 Geography Home Page'. The user is identified as 'Alex Darrow'. The main content area features a 'Class Dates and Upcoming Events' section with a timeline from May 15 to June 2. Key events include 'Submit planning template' on May 19, 'First draft - peer review process' on May 30, and 'Final work due' on June 6. A sidebar on the left indicates 'Research Design Process in groups due in 14 days'. The site includes navigation options like 'BROWSE', 'PAGE', and 'PUBLISH', and social sharing options like 'SHARE', 'FOLLOW', and 'EDIT'.

using real time interactivity

Benefit 2

The screenshot shows a Samsung tablet displaying a video player interface. The video content is handwritten text on a lined background, discussing algebraic expressions. The text includes:

When we want to solve a problem that vary we can start to build **pronumerals** to represent **variables**. expressions do not contain **e**.

Example 1 Write an expression for **t and 5**.
 $t + 5$

Example 2 If **c** represents a number write an expression for:
i) 5 times that number ii) 8 more than that number

The video player interface includes a progress bar at 00:00/01:33, playback controls (rewind, play, fast forward), and volume settings. The background shows a classroom management interface with a sidebar containing 'contoso K-12 College', 'Year 7 Geography Home P', 'Important Dates', 'Class Dates and Up', 'Research Design Process in groups due in 14 days', and 'Join the Class Con'.
