

Microsoft Social Engagement Translation Guide

Last Updated: October 2018

Microsoft Social Engagement is translated and supported by Microsoft and made generally available in the countries/regions and languages listed in the product availability table below. Microsoft Social Engagement is available in 17 Core languages: English, Danish, Dutch, Finnish, French, German, Greek, Italian, Norwegian, Polish, Portuguese (Portugal), Russian, Spanish, Swedish, Turkish, Japanese, Chinese traditional (“17 Core”).

Microsoft Social Engagement includes features and functionality designed to listen, monitor, identify and query publicly available social content, documents and posts in the 17 Core languages, plus 7 extended languages. These extended languages are: Arabic, Bosnian, Croatian, Hebrew, Serbian, Slovenian and Thai. Social content will remain in its original language and will not be translated by Microsoft Social Engagement for these 7 extended languages. Native sentiment detection will be available in the 17 Core languages and Arabic but not in the 6 remaining extended languages.

Languages

Translation is the process of adapting software or documentation to meet language requirements for a particular country/region. For any given language, Microsoft may translate some, all or none of the user interface (UI) and documentation.
