WARNING Before playing this game, read the Xbox 360® console instructions, Xbox 360 KINECT™ Sensor manual, and any other peripheral manuals for important safety and health information. Keep all manuals for future reference. For replacement hardware manuals, go to www.xbox.com/support or call Xbox Customer Support.

For additional safety information, see the inside back cover.

Important Health Warning About Playing Video Games

Photosensitive Seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these “photosensitive epileptic seizures” while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures. The risk of photosensitive epileptic seizures may be reduced by taking the following precautions: Sit farther from the screen; use a smaller screen; play in a well-lit room; and do not play when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

Classification Board (formerly Office of Film and Literature Classification)

The Classification Board is an independent censorship and statutory body responsible for classification of films, computer games and publications. Each rating is coloured and is clearly visible on the game packaging. The examples below display the three main components of a rating for computer games:

- Classification symbol
- Classification description
- Consumer advice, content descriptor of game.

Classification in Australia

www.classification.gov.au

General

General. Content is very mild

Parental guidance recommended

Parental Guidance. Content is mild.

Recommended for mature audiences

Mature. Content is moderate in impact.

Not suitable for people under 15. Under 15s must be accompanied by a parent or adult guardian

Restricted. Content is strong.

Classification in New Zealand

www.censorship.govt.nz/censorship/censorship-film-labels.html

New Zealand's ratings differ slightly to Australia's. Products rated M or under may bear the Australian classification labels above but products with restricted content will bear the following New Zealand OFLC labels:

R15. Restricted to persons 15 years of age and over.

R16. Restricted to persons 16 years of age and over

R18. Restricted to persons 18 years of age and over

Restricted. Restricted to a particular class of persons, or for particular purposes.

WELCOME TO DANCE CENTRAL

It's time to show the world what you're made of. In *Dance Central*, you'll learn impressive moves, dominate full routines, and work your way up from Wallflower to Living Legend!

HOW TO GET HELP WITH KINECT

Need to calibrate the Kinect™ Sensor? You can access the Kinect Tuner at any time to adjust the settings of your sensor by pausing the game and selecting Kinect Tuner, selecting Kinect Tuner in the Options menu, or via the Kinect Guide.

To open the Kinect Guide, hover your pointer over the guide icon in the lower left hand side of the screen.

To find more information about Kinect, including tutorials, go to www.xbox.com/support.

KINECT CALIBRATION CARD

If the sensor isn't recognising your gestures, try calibrating it using the included Kinect Sensor Calibration Card. Open the Kinect Guide, then select Kinect Tuner. From there, run sensor calibration with the included calibration card. Keep the card for future use.

SETTING UP YOUR SPACE

- Put your Kinect Sensor in a place it can easily see you. Under your TV is usually the best spot.
- Get noticed! Don't stand too close to the sensor, or too far away. Between 1.8 and 3 metres is ideal. Once you're visible from head to toe in the helper frame, you're good to go.
- Clear the area! Prior to popping and locking, take a look around your play space. Is everything out of the way? Be sure you've got enough room to move so nothing gets broken when you Break It Down.
- Don't have much space to dance in? No problem! Try placing the sensor higher up to get a better field of view. Just make sure that wherever you set up your sensor, it's not likely to take a tumble while you dance.

NAVIGATING THE MENUS

You can fully navigate all menus in *Dance Central* without an Xbox 360 controller, through gestural input using Kinect.

Hold your right arm out to the side to highlight menu items. The height of your hand will determine which item you have highlighted in the menu.

Scroll through songs quickly by raising or lowering your hand until the directional arrows appear to the left of the song list.

Swipe your arm across your body horizontally to select the highlighted button.

Return to previous screens by swiping BACK in the lower left corner of the screen with your left hand.

NAVIGATING MENUS WITH AN XBOX 360 CONTROLLER

Press any button on the controller to navigate menus using your controller. Press  on the controller to exit Controller Mode and navigate using your body.

Pausing the Game

Need to take a break? You can pause the game at any time by:

- Activating the Kinect Guide.
- Pressing  on the controller.
- Stepping out of view of the camera. The game will automatically pause if it can't see any players.

THE HELPER FRAME

At all times, there will be a small frame on-screen that will show you what Kinect can see.

The active player is always marked as white in the helper frame. Make sure you're visible from head to toe in the helper frame so the Kinect Sensor can see all your sweet moves.

Inactive players are marked as grey in the helper frame. To switch between players, simply step in to the centre of the Kinect Sensor's field of view. You'll know you're the active player when your silhouette is highlighted and switches from grey to white.

Helper Frame

HOW TO PLAY DANCE CENTRAL

THE BASICS

There are three main ways to play Dance Central. For each song, you can either Break it Down, Perform It!, or have a Dance Battle. But before you can bounce to the beat, there are some basic tips you need in order to become a pro dancer!

During songs, the screen will usually look like this. All of the most important things for you to pay attention to are labelled.

Spotlight

Upcoming Move

MIMIC THE MOVES OF THE DANCER!

Dance Central is all about mirroring the moves of the on-screen dancer to the rhythm of the song. When the dancer moves to your left, move left. When the dancer moves to your right, move right.

Limb Feedback

Watch out for red outlines on the limbs of the dancer. These appear when you're not quite nailing a move, and indicate which part of the move you need to work on.

Dance Central will never fail you out in the middle of a song for missing moves, but if your clothes are too loose, they could make it difficult for the Kinect Sensor to accurately track your movement.

SPOTLIGHT

Perform moves accurately to fill up the Spotlight. The better your performance, the faster the Spotlight grows and fills with colour. The Spotlight colours change from red, to yellow, to green, to blue when you perform moves accurately. Perform perfectly for a "Flawless!!!" result to earn bonus points!

FLASHCARDS

Each move in the game has a corresponding Flashcard and name. Memorise Flashcards to keep up with moves more easily. The best place to learn moves and their matching Flashcards is in Break It Down.

DOUBLE-UP MOVE FLASHCARDS

Sometimes, the last part of a move will “double-up” on one side, before going on to the next move in the routine.

When you’re ready to Perform It, keep your eye out for the D so you know when it’s time to double-up.

If you’re having a hard time, try the track in Break It Down. We’ll call out double-up moves during Break It Down so you know what to expect.

THE BOOMBOX

Score Multiplier

Nail multiple moves in a row to increase your score multiplier and earn massive bonus points. Push your multiplier to the max to transform the venue into a real dance floor!

Stars

You can earn up to five Stars for any given performance. Give a perfect performance to earn Gold Stars!

Score

Try to beat your own high score, or your friends’ scores, on the Xbox LIVE Leaderboards!

DANCE

CHOOSING A SONG

Time to strut your stuff – learn routines, battle a friend, or just get out there and perform.

- Select Dance!, then choose the song you wish to dance to!
- The song routine's difficulty displays beneath the artist's name and album art on the left of the screen.

CHOOSING A MODE

After selecting a song, it's time to choose your Mode. Rehearse your moves in Break It Down, get out there in front of a crowd and Perform It!, or prove yourself with a two player Dance Battle.

CHOOSING A SKILL LEVEL

After choosing a Mode, it's time to choose your Skill Level.

EASY routines are simplified, with fewer moves and more repetition in the routine.

MEDIUM routines add more moves and variety to the routine.

HARD routines add a lot more moves, and switch between moves more often.

GETTING TO KNOW EACH MODE

BREAK IT DOWN

Dancing in front of a crowd can be daunting. In Break It Down you'll learn all the moves, routines, and skills needed to get out in front of an audience.

Here's what you need to know in order to get each routine down pat and perfected:

- Watch the first demonstration of a move, then nail it three times to proceed to the next move. If it's a move you already know, nail it during the demonstration to earn a Diamond!
- If you're having trouble with a move, don't worry; you'll hear verbal instructions on how to get it down. If you're really struggling, select Slow It Down with your left hand to get a better look! When you're done focusing on a move, just select Speed It Up.
- Have you learned a move, but feel like you need to give it some more focus? Between moves, Retry appears in the upper left corner of the screen. Swipe Retry with your left hand to return to the previous move.

SLOW IT DOWN

SPEED IT UP

RETRY

Put it all together! Learning individual moves is one thing, but real dance skill comes from stringing moves together. When a Recap hits, try your best to nail every move and earn a perfect score!

PERFORM IT!

Ready to get out there and show off those moves? Jump into PERFORM IT!

In the middle of each song, you'll get the chance to show off your own moves in Freestyle! Nail moves marked with a camera icon to earn photo ops. You can view your photos on the Results Screen at the end of the song. Feeling camera shy? Freestyle Photo Shoots can be disabled in the Options menu, under A/V Settings.

Not quite ready to take centre stage? Perform as a backup dancer during a friend's dance routine to really nail those moves and get ready for the limelight. Just make sure you're not in the centre of the Kinect Sensor's field of view to keep from taking over the performance.

DANCE BATTLE

Got a grudge to settle? Prove you're the best on the block with this multiplayer mode!

During a Dance Battle, two players will take turns dancing to portions of a track. The player who earns the highest score wins!

It isn't all about competing, though. During a Dance Battle both players will work to earn up to five stars together. Earn as many stars as you can together to unlock bonus content!

Choosing Your Skill Level in Dance Battle

If you've chosen Dance Battle, both players will choose their own skill level. Player One will choose first, followed by Player Two.

RANKING UP AND UNLOCKING CONTENT

Ranking Up

In *Dance Central*, you need to prove your skills if you want to work your way from Wallflower to Living Legend. Rank up by earning stars in Perform It!. A special prize awaits those who become a Living Legend...

Unlocking Content

Gain access to new venues, new looks for the dancers, harder routines, Challenges, and more!

Each piece of locked content will display this padlock: The first time you play each song in Perform It!, access to the Medium and Hard routines will be locked. Unlock these routines by earning at least 3 stars in Perform It! or passing 50 percent of moves in Break It Down. To view details on how to unlock an item, simply select the locked content.

PLAY!

Once you've selected the song you want to perform, you'll have a few extra options available on the PLAY! screen:

CHANGE VENUE to choose where you'll dance! Some venues may be locked; select a locked venue to view details on how to unlock it.

CHANGE DANCER to pick a character to work with! Once you've chosen a dancer, you can choose a look for them.

If you're playing in Perform It!, you'll have a couple of extra options:

WORKOUT MODE Toggle Workout Mode on to estimate how much energy you're burning while you dance! Once you've entered your weight and started the song, you can keep track of your workout with the current calories burned and elapsed time indicators on the left of the screen.

NO-FLASHCARDS Toggle Flashcards off to truly master routines or just show off your skills. If it turns out to be too difficult, return to the song options screen to turn flashcards back on. Turning Flashcards off becomes available only after you earn five Stars for the routine you want to perform.

YOUR STATS

Visit Your Stats from the Main Menu to track your dance stats and progress in *Dance Central*! These stats are brought to you by the mysterious ELIOT (Excessive Live Information Overload Tracker) system. Check back often to watch your skills improve and see how your preferences and rankings change!

OPTIONS

Manage your settings by selecting Options from the Main Menu.

KINECT TUNER

Having trouble with the Kinect Sensor? Select Kinect Tuner to adjust the settings on your sensor.

CALIBRATION SETTINGS

Do the dancer's movements seem out-of-sync with the music? Does the gameplay just seem rhythmically off? You may need to calibrate, especially if you have a complicated TV/stereo setup.

To change your calibration settings:

- Adjust the amount of offset by scrolling slowly up and down until the visual indicator on the screen lines up with the audio you're hearing. The animation of the visual indicator and the sound should match up completely.
- When you feel you've got the correct amount of offset, try dancing again. If the sync still seems wrong, try recalibrating.
- If you're still having trouble or want more information about optimal calibration, please visit www.dancecentral.com!

A/V SETTINGS

SURROUND SOUND Toggle Surround Sound on or off.

VIDEO OVERSCAN On some TVs, you may see a black border around the screen. Toggle Video Overscan on or off if you feel like *Dance Central* isn't taking up as much screen space as it should.

DISABLE PHOTOS Feeling camera shy? Toggle Disable Photos to turn Freestyle Photo Shoots off.

CROWD VOLUME Select a volume level, one through five, which will determine how loud the crowd will be.

EFFECTS VOLUME Select a volume level, one through five, which will determine how loud the effects will be.

AUTOSAVE

Toggle Autosave off if you would prefer to save manually, or re-enable it to ensure all your epic moves are saved regularly. Saving is supported for the active profile only. Achievements are awarded to all signed-in profiles, but if you want to save your progress, make sure yours is the active profile.

HELP

If you need a quick review, simply select Help. From here, you can view tutorials on how to Break It Down and Perform It!.

MOVIES

Select Movies to watch the opening and closing cinematics for *Dance Central* while you give your dancing shoes a rest.

CREDITS

Check out the Credits to find out about the fine-looking crew that created *Dance Central*!

BUY NEW DANCES

Select Buy New Dances from the main menu to get new songs for *Dance Central* via Xbox LIVE® Marketplace*. Check back often for the latest downloadable tracks featuring unique routines and all-new choreography! To download new routines you must be connected to Xbox LIVE.

*In New Zealand, only adult accounts (18+) can download or stream content over Xbox LIVE marketplace. Microsoft Points (sold separately) required to shop Marketplace.

XBOX LIVE

Xbox LIVE® is the online game and entertainment service for Xbox 360®. Just connect your console to your broadband Internet service and join. You can get access to complimentary game demos and instant access to HD movies (sold separately)—with Kinect, you can control HD movies with the wave of a hand. Upgrade to an Xbox LIVE Gold Membership (sold separately) to play games online with friends around the world and more. Xbox LIVE is your connection to more games, entertainment, and fun. Go to www.xbox.com/live to learn more.

CONNECTING

Before you can use Xbox LIVE, connect your Xbox 360 console to a high-speed Internet connection and sign up to become an Xbox LIVE member. For more information about connecting, and to determine whether Xbox LIVE is available in your region, go to www.xbox.com/live/countries.

FAMILY SETTINGS

These easy and flexible tools enable parents and caregivers to decide which games young game players can access based on the content rating. Parents can restrict access to mature-rated content. Approve who and how your family interacts with others online with the Xbox LIVE service, and set time limits on how long they can play. For more information, go to www.xbox.com/familysettings.

XBOX LIVE LEADERBOARDS

Check out the leaderboards to see where you rank against the rest of the world! Scores posted to leaderboards are earned in Perform It!. Scores earned in No Flashcard mode are specially tagged on the leaderboards.

Warranty For Your Copy of Xbox Game Software ("Game") Acquired in Australia or New Zealand IF YOU ACQUIRED YOUR GAME IN AUSTRALIA OR NEW ZEALAND, THE FOLLOWING WARRANTY APPLIES TO YOU IN ADDITION TO ANY STATUTORY WARRANTIES:

Consumer Rights

You may have the benefit of certain rights or remedies against Microsoft Corporation ("Microsoft") or its suppliers pursuant to the Competition and Consumer Act 2010 (Cth) and similar state and territory laws in Australia in respect of which liability may not be excluded. You may also have the benefit of certain rights or remedies against Microsoft or its suppliers pursuant to the Consumer Guarantees Act in New Zealand where you are purchasing this Game for personal use and not for the purpose of a business, in respect of which liability may not be excluded. This Warranty and your remedies in respect of this Warranty are in addition to those rights and remedies (if any), and except to the maximum extent permitted by applicable law, do not limit or exclude those rights and remedies.

Warranty

Microsoft warrants that this Game will perform substantially as described in the accompanying manual for a period of 30 days from the date of first purchase. This Warranty is void if any difficulties with the Game are related to accident, abuse, failure by you to follow any instructions included with the Game, virus or misapplication. Microsoft does not make any other warranty or promise about the Game except as required under your local law, and to the maximum extent permitted under your local law, Microsoft excludes all other representations, promises, warranties, conditions, guarantees, and other terms, whether express or implied, whenever arising, and whether originating by statute, law, trade, custom or otherwise.

Your remedies

If you discover within the 30 day period that the Game covered by this Warranty does not perform substantially as described in the accompanying manual, you can return it to your retailer along with a copy of the original sales receipt. Your retailer will, at its option: (a) repair or replace the Game free of charge, or (b) return the price paid. Any replacement Game will be warranted under this Warranty for the remainder of the original warranty period or 30 days from receipt, whichever is longer. To the extent that you could have avoided damages by taking reasonable care, Microsoft will not be liable for such damages.

Statutory rights

You may have statutory rights against your retailer which are not affected by Microsoft's Warranty.

Australia: Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure. Goods presented for repair may be replaced by refurbished goods of the same type rather than being repaired. Refurbished parts may be used to repair the goods. **New Zealand:** Our goods come with guarantees that cannot be excluded under the New Zealand Consumer Guarantees Act. Goods presented for repair may be replaced by refurbished goods of the same type rather than being repaired. Refurbished parts may be used to repair the goods.

No other warranties

To the maximum extent permitted by applicable law Microsoft and its suppliers disclaim all other representations, promises, warranties, conditions, guarantees or other terms, whether express or implied, whenever arising, and whether originating by statute, law, trade, custom or otherwise with respect to the Game and accompanying manual. You may have greater rights existing under applicable laws. Where any term of this Warranty is prohibited by such laws it shall be null and void, but the remainder of the Warranty shall remain in full force and effect.

Limitation of liability

To the maximum extent permitted by applicable law neither Microsoft nor any of its suppliers shall be liable for any damages, howsoever caused, arising out of or in any way related to the manual or to the use or inability to use the Game, or have any liability or obligation (other than as expressly provided for in this Warranty), whether in tort, contract, breach of statutory duty, equity or otherwise arising from the relationship between you and Microsoft or any of its suppliers, even if Microsoft or any of its suppliers has been advised of the possibility of such damages, liabilities or obligations. In any case, Microsoft's and its suppliers' entire liability is limited to the amount actually paid by you for the Game. Some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages so the above limitations or exclusions may not apply to you.

For questions regarding this warranty contact your Xbox Customer Support at www.xbox.com/en-AU or in Australia call 1 800 555 741 or Microsoft at:

Xbox Product Registration Microsoft Corporation
One Microsoft Way
Redmond, WA 98052-9953 USA

Playing KINECT Safely

Make sure you have enough space so you can move freely while playing.

Gameplay with KINECT may require varying amounts of movement. Make sure you won't hit, run into, or trip over other players, bystanders, pets, furniture, or other objects when playing. If you stand or move during gameplay, you need good footing.

Before playing: Look in all directions (right, left, forward, backward, down, and up) for things you might hit or trip over. Be sure your play area is far enough away from windows, walls, stairs, etc. Make sure there is nothing you might trip on—for example, toys, furniture, loose rugs, children, pets, etc. If necessary, move objects or people out of the play area. Don't forget to look up—be aware of light fixtures, fans, or other objects overhead when assessing the play area.

While playing: Stay far enough away from the television to avoid contact. Keep enough distance from other players, bystanders, and pets—this distance may vary between games, so take account of how you are playing when determining how far away you need to be. Stay alert for objects or people you might hit or trip on—people or objects can move into the area during gameplay, so you should always be alert to your surroundings.

Make sure you always have good footing while playing. Play on a level floor with enough traction for the game activities, and make sure you have appropriate footwear for gaming (no high heels, flip flops, etc.) or are barefoot if appropriate.

Before allowing children to use KINECT: Determine how each child can use KINECT and whether they should be supervised during these activities. If you allow children to use KINECT without supervision, be sure to explain all relevant safety and health information and instructions. **Make sure children using KINECT play safely** and within their limits, and make sure they understand proper use of the system.

To minimise eyestrain from glare: Position yourself at a comfortable distance from your monitor or television and the KINECT sensor; place your monitor or television and KINECT sensor away from light sources that produce glare, or use window blinds to control light levels; choose soothing natural light that minimises glare and eyestrain and increases contrast and clarity; and adjust your monitor's or television's brightness and contrast.

Don't overexert yourself. Gameplay with KINECT may require varying amounts of physical activity. Consult a doctor before using KINECT if you have any medical condition or issue that affects your ability to safely perform physical activities or if: You are or may be pregnant; you have heart, respiratory, back, joint, or other orthopedic conditions; you have high blood pressure or difficulty with physical exercise; or you have been instructed to restrict physical activity. Consult your doctor before beginning any exercise routine or fitness regimen that includes KINECT. Do not play under the influence of drugs or alcohol, and make sure your balance and physical abilities are sufficient for any movements while gaming.

Stop and rest if your muscles, joints, or eyes become tired or sore. If you experience excessive fatigue, nausea, shortness of breath, chest tightness, dizziness, discomfort, or pain, STOP USING IMMEDIATELY, and consult a doctor.

See the Healthy Gaming Guide at www.xbox.com for more information.

Hang on to this code to keep on dancin'...

Online play, functionality, features and support for *Dance Central* and any and all other products and services of Harmonix Music Systems, Inc., Microsoft and any third parties are provided solely on an "as is" and "as available" basis and may be modified, discontinued or unavailable at any time and at the sole discretion of the parties.
