

Takeaways

Takeaways on subsequent pages give teachers a quick visual reference of different features within an app.

Participants can linger for as long as they like and take in any of the details they may have missed during the presentation.

Added bonus: Teachers can use these when they're back in the classroom and wanting to refresh their memories about what they learned.

- **How to create a team**
- **Teams spaces**

 **Suggestion for distribution:**
Print each takeaway out on card stock and put them all on a ring for teachers to use over and over.

Course 1: All about Teams

Takeaways

These takeaways give you a quick visual reference of different features within the app. They're like slow-motion (okay, totally still) action shots. You can linger for as long as you like and take in any of the details you may have missed during the presentations.

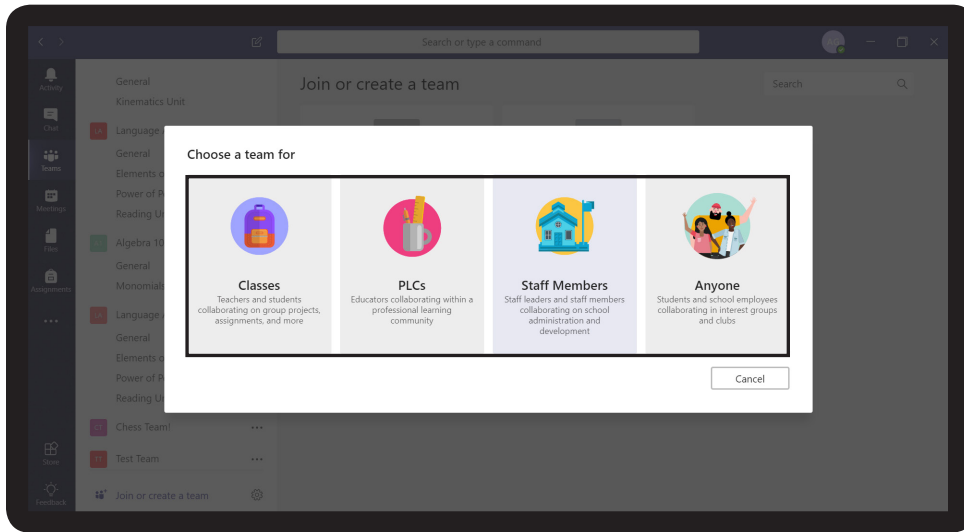

Added bonus: Use these when you're back in the classroom and wanting to refresh your memory about what you learned today. They'll help you remember where to find that one button that does that one thing.

- Teams spaces

 Takeaways will help you remember where to find that *one button* that does that *one thing*.

Teams and channels in Microsoft Teams

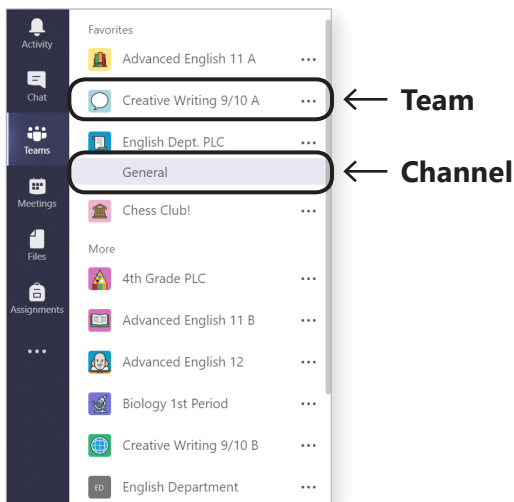

A team is a place where you collaborate with others. You can have different teams for the different classes you teach, collaborations with other teachers, or, for really any group that wants to work together.
