Microsoft® Hardware

Microsoft® Webcams

Let your customers share more life experiences online

What's the formula for giving your customers more enjoyment while using your systems to make video calls?

Microsoft Webcams + Windows Live = Easy and Fun

All Microsoft webcams are optimized for Windows Live™, the most popular instant messaging service in the world. This hardware/online-service combination delivers an easy-to-use, fun experience and lets your customers chat live via text, voice, and video—and even swap photos during the call.

Desktop Products

Our desktop webcams incorporate advanced features such as High Definition sensors; wide-angle lenses; pan, tilt, and zoom controls; automatic face tracking; and noise-canceling microphones.
