WIRELESS-B ADAPTER

High Performance Networking Made Easy

Wireless USB Adapter

MN-510

Adds a desktop computer to your wireless network

Unparalleled easy networking

The Microsoft® Broadband Networking Wireless USB Adapter makes it easy to add a desktop computer (or any computer with an open USB port) to the 802.11b or 802.11g wireless network in your home or small office.

- Unique software installation wizard walks you easily through setup.
- Fully compatible with all 802.11g and 802.11b Wi-Fi networks.
- Superior graphical Broadband Network Utility makes it easy to manage your network.

High performance

- Faster than typical broadband speeds—up to 11 Mbps.
- State-of-the-art hardware with external and internal antennae to maximize range.
- Enjoy wireless freedom—playing music, games, and video anywhere.

Critically acclaimed high security

- State-of-the-art secured connection to your office using Virtual Private Network (VPN) passthrough and tunneling.
- Flexible support for 802.1x, 256-bit Wi-Fi Protected Access (WPA), and 128-bit Wired Equivalent Privacy (WEP) delivers strong wireless security.

Included in the box:

- Microsoft® Broadband Networking Wireless USB Adapter—802.11b/Wi-Fi network adapter with attached USB cable (Dimensions: 2.6" x 3.4" x 0.6")
- Software CD with the easy-to-use setup wizard and Microsoft Broadband Network Utility
- *Start Here* guide
- *User's Guide*

System Requirements:

To use the Microsoft® Broadband Networking Wireless USB Adapter MN-510, you need:

- Microsoft Broadband Networking Wireless Base Station or other Wi-Fi access point
- PC that has an available USB 1.0 or higher, full-speed, compliant high-power port and that is running Microsoft Windows® 98, Windows 98 SE, Windows Millennium Edition (Windows Me), Windows 2000* Professional, Windows XP Professional, or Windows XP Home Edition operating system

To use the Microsoft Broadband setup wizard and Network Utility, you need:

- PC running Microsoft Windows® 98, Windows 98 SE, Windows Millennium Edition (Windows Me), Windows 2000* Professional, Windows XP Professional, or Windows XP Home Edition operating system
 - Microsoft Internet Explorer 5.0 or later; setup will install Internet Explorer 6.0 browser components if needed, but will not displace your primary browser
 - 132 MB of available hard-disk space if you are installing Internet Explorer for the first time; 40 MB of available hard-disk space if you already have Internet Explorer 5.5 or 6.0 installed
 - 4x CD-ROM drive
 - VGA or higher-resolution monitor; Super VGA recommended
- *Features and functionality are limited on Windows 2000.
