Introduktion til Business Productivity Online Suite

BEMÆRK !!! Denne session er annonceret som "del 2" af BPOS introduktionen. Men "del 1" blev aflyst. Derfor er denne session ændret til primært at være en introduktion til deltagere der IKKE har hørt om BPOS tidligere.

Agenda

- Udfordringer for (mindre) virksomheder
- Overvejelser ved IT investeringer
- Overblik over løsningen
 - Adgang alle steder fra
 - Sikkerhed, Pålidelighed og drift
- Demonstration af bruger admin.oplevelsen med BPOS
- Lidt i dybten på Sharepoint funktionaliteten
- Priser og licensiering
- Besvarelse af spørgsmål der er kommet ind under sessionen.

Forretningsudfordringer

Overvejelser ved IT investeringer

- Hvad har min forretning brug for og hvordan kan IT understøtte mine mål?
- Hvor lang tid vil det tage at implementere en løsning? Og hvordan gør vi det?
- Hvor meget vil en løsning koste? Og hvad koster den at få installeret og vedligeholdt?
- Har mit firma brug for flere IT ressourcer til at supportere denne løsning?
- Hvor hurtigt vil mine folk lære at bruge løsningen og de muligheder den nye løsninger giver?
- Hvem står bag teknologien som beskytter min investering?
- Kan løsningen vokse og tilpasse sig med os?

Strategiske IT prioriteter

Sikkerhed & pålidelighed

Adgang alle steder fra*

Understøtte forretningsprocesser

Hvad kan løsningen?

Business Productivity Online Suite

- Adgang alle steder fra, PC, mobil telefon, internettet, hvor der er internet forbindelse
- Ensartet brugeroplevelse på tværs af redskaber
- Samarbejds muligheder og møderedskaber

**Bedre
kommunikation**

- Altid opdateret teknologi
- Lav implementeringsomkostninger og løbende omkostninger
- Fra investeringsbudget til driftsbudget

Omkostnings effektiv

- Flere lag af antivirus og spam filtrering
- Krypteret adgang og transport af data
- Spredt datacentre – med høj sikkerhed
- Revideret og tjekket af uafhængige sikkerhedsorganisationer

Sikkert & pålideligt

Bedre (integreret) kommunikation

Streamlined
Communications

Communicate and collaborate seamlessly across applications and devices

SharePoint Extensibility Summary

Supported

- SharePoint Designer
 - Create no-code workflows
 - Customize content types
 - Taxonomy and branding via master pages and layout
 - Site templates
 - XSLT
 - JavaScript
- Info Path
 - Use InfoPath to design forms for workflows (with client)
- Data View Web Part
 - Mashup, filter, roll-up and render SharePoint data or data from external Web Services
- SharePoint Web Services
 - Access and manipulate SharePoint files and data remotely

Futures

- Futures
 - Farm-wide configuration changes
 - Alter any SharePoint server files Web config settings, security policy, etc.
- Server Side Code
 - Deployed features or solutions
 - Pluggable auth providers
 - Custom Web Parts
 - Site definitions
 - Coded workflows
 - Info Path forms with coded business logic

SharePoint Online Futures Guidance

- V1 = WSS features, plus the MOSS Enterprise Content Management / Web Publishing feature
- Going forward, we expect the following features to come online **soon**:
 - InfoPath forms Services
 - MOSS Enterprise out-of-the-box workflows
- The following features are next in line, but **will take longer**:
 - Excel Calculation Services
 - KPIs and BI reporting Web Parts and Templates
 - Cross-site-collection search
- The following features **may not come until v2**:
 - Records Center & Archiving
 - **Extranet** (partner access)
 - **Internet** (anonymous access, non-SSL, vanity domain, etc.)
- The following features definitely **won't come before v2**:
 - **My Sites** and other social networking features

What's in SharePoint Online V1

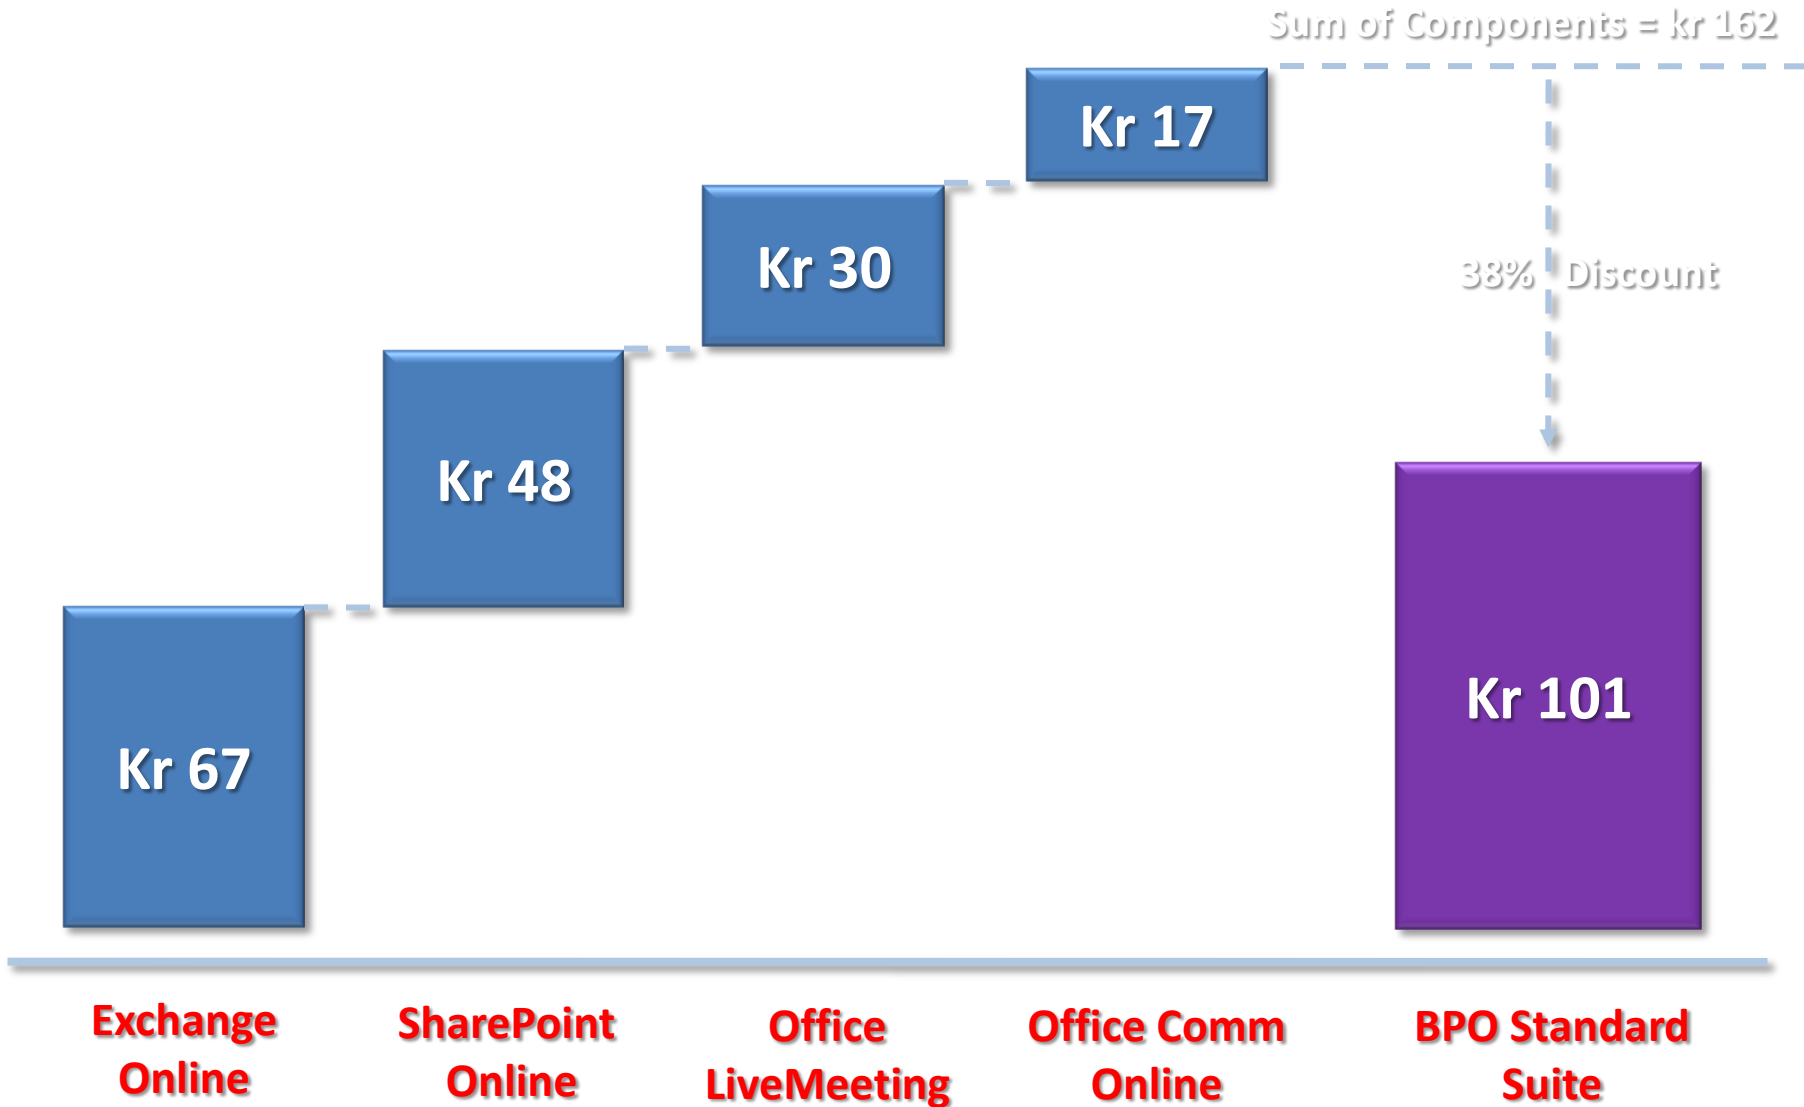

Portal	Collaboration	Content Management	Search	Business Processes	Business Intelligence	Service Related Features

Sådan køber du det?

- Online Services er markedsført med tre trin: Lær det, prøv det og køb det.
- Kunder placerer ordre direkte på en MS hjemmeside, eller beder en partner om hjælp til det.
- Partnere kan hjælpe med at implementere, migrere, udrulle, træne etc.

Typiske partner services

Konsulenthus kan hjælpe med en hel række opgaver i forbindelse med brugen af BPOS
