

Microsoft Edge

# Get a picture of browser usage at your organization

Using legacy or retired browsers presents security risks for your data and users.

## Legacy

Internet Explorer 11  
(retiring June 15, 2022\*)

Microsoft Edge Legacy  
(retired)

## Modern

Microsoft Edge  
(supported)

If you're a Microsoft 365 administrator, you can use the [Microsoft browser usage report](#) to assess legacy browser usage in your organization and help move users to the modern Microsoft Edge browser.

\*For a full list of platforms impacted by this retirement, [see our FAQ](#).

Explore [this Microsoft Docs page](#) to learn how to access browser usage reports.
