

# Verify Download

Windows 11 Enterprise, version 22H2

Evaluation Software

64-Bit ISO

# Verify Download

If you would like to verify the data integrity and authenticity of your download:

1. Download the desired ISO file and follow the installation guidelines.
2. Launch Windows PowerShell. If you need help finding the location of PowerShell for your operating system, you can get help [here](#).
3. In PowerShell, compute the hash value for the ISO file you downloaded by using [Get-FileHash](#).  
For example: `Get-FileHash C:\Users\user1\Downloads\Contoso8_1_ENT.iso`
4. If the SHA256 output matches the value for the product that you downloaded listed in this document, this confirms that the file has not been corrupted, tampered, or altered from the original.

# Windows 11 Enterprise, version 22H2
