

# Microsoft Dynamics AX Mobile Application Privacy Statement

Last updated: Feb. 1, 2013

Microsoft is committed to protecting your privacy, while delivering software that brings you the performance, power, and convenience you desire in your personal computing. This privacy statement governs your use of the Dynamics AX mobile application. It does not apply to other online or offline Microsoft sites, products, or services.

Dynamics AX mobile application is designed to enable users to capture out of pocket expenses and create, save and submit their time entries. The application does collect personally identifiable information and require the use of logins, passwords, etc. The application does, with user consent, transmits time and expense information to a customer hosted instance of Microsoft Dynamics AX 2012. This information is not transmitted to Microsoft. The application also collects non-identifiable data about the use and performance of the application, which is analyzed in an aggregate form by Microsoft for purposes of improving the application and better understanding how it is used.

Information that is collected by or sent to Microsoft by the Dynamics AX mobile application may be stored and processed in the United States or any other country in which Microsoft or its affiliates, subsidiaries, or service providers maintain facilities. Microsoft abides by the safe harbor framework as set forth by the U.S. Department of Commerce regarding the collection, use, and retention of data from the European Union, the European Economic Area, and Switzerland.

Microsoft welcomes your comments regarding this privacy statement. If you have questions about this statement or believe that we have not adhered to it, please contact by using our [web form](#) or use the contact information provided below:
