

Manage through the Federal Sequester with Microsoft Financing

Federal, state, and local agency budgets are under a lot of pressure. Whatever the outcome of the budget sequester negotiations, cuts could have a big impact on the IT projects you need to enhance your organization's productivity.

Microsoft Financing payment solutions can help get you back on track, with a range of flexible payment structures tailored to your requirements and deployment schedule.

Fund all aspects of your IT project
(minimum 10% Microsoft content)

Align payments to budgets, cash flow, and deployment

Acquire and deploy IT in the best way for your organization

Choose a payment solution to meet your agency's needs

Deferred payments – make no payments for up to six months

Ramped payments – start low to match deployment and migration projects

Structured payments – select a monthly, quarterly, semi-annual, or custom schedule

Customized payments – align solutions with budget, cash flow, and deployment
