

Get the IT you need, even with tight budgets

With Microsoft Financing payment solutions for Public Sector organizations

Are budget challenges and constraints impacting your ability to make strategic IT investments, improve productivity, and deliver new business services?

Microsoft Financing helps design convenient and flexible payment solutions to structure your technology spend – enabling you to meet the needs of citizens as well as your budget priorities.

Fund all aspects of your IT project (minimum 10% Microsoft content)

Align payments to budgets, cash flow, and deployment

Payment solutions can be built into the contract with your LAR

Choose a payment solution to meet your organization's needs

Deferred payments – no initial payment for a pre-agreed term

Ramped payments – start low to match deployment and migration projects

Standardized payments – even monthly, quarterly or semi-annual payments

Customized payments – align solutions with budget, cash flow, and deployment
