Introduction

Financial Inflation Adjustment is a tool that allows you to adjust your non monetary accounts for inflation for the fiscal periods that you have set up. Journal entries for the adjustment are created in General Ledger, from where you can post them.

Check for current instructions

This information was current as of May 2010. The documentation may be updated as new information becomes available. Check the Microsoft Dynamics® GP online Web site (<http://go.microsoft.com/fwlink/?LinkID=161199>) for the most current documentation.

The introduction is divided into the following sections:

- [What's in this manual](#)
- [Symbols and conventions](#)
- [Resources available from the Help menu](#)
- [Send us your documentation comments](#)

What's in this manual

This manual is designed to give you an in-depth understanding of how to use the features of Financial Inflation Adjustment, and how it integrates with the Microsoft Dynamics GP system.

To make best use of Financial Inflation Adjustment, you should be familiar with systemwide features described in the System User's Guide, the System Setup Guide, and the System Administrator's Guide.

Some features described in the documentation are optional and can be purchased through your Microsoft Dynamics GP partner.

To view information about the release of Microsoft Dynamics GP that you're using and which modules or features you are registered to use, choose Help >> About Microsoft Dynamics GP.

This manual is divided into the following chapters:

- [Chapter 1, "Setup and routines,"](#) explains how to set up Financial Inflation Adjustment for your company. You can select the accounts for which to perform inflation adjustment. You can perform the inflation adjustment for a selected period according to the inflation index specified by the authorities.
- [Chapter 2, "Inquiries,"](#) describes how you can post the adjustment entries from General Ledger. You can view the details for adjustments you have posted for a selected period.

Symbols and conventions

For definitions of unfamiliar terms, see the glossary in the manual or refer to the glossary in Help.

Symbol	Description
	The light bulb symbol indicates helpful tips, shortcuts and suggestions.
	The warning symbol indicates situations you should be especially aware of when completing tasks.

This manual uses the following conventions to refer to sections, navigation and other information.

Convention	Description
<i>Creating a batch</i>	Italicized type indicates the name of a section or procedure.
File >> Print or File > Print	The (>>) or (>) symbol indicates a sequence of actions, such as selecting items from a menu or toolbar, or pressing buttons in a window. This example directs you to go to the File menu and choose Print.
TAB or ENTER	All capital letters indicate a key or a key sequence.

Resources available from the Help menu

The Microsoft Dynamics GP Help menu gives you access to user assistance resources on your computer, as well as on the Web.

Contents

Opens the Help file for the active Microsoft Dynamics GP component, and displays the main “contents” topic. To browse a more detailed table of contents, click the Contents tab above the Help navigation pane. Items in the contents topic and tab are arranged by module. If the contents for the active component includes an “Additional Help files” topic, click the links to view separate Help files that describe additional components.

To find information in Help by using the index or full-text search, click the appropriate tab above the navigation pane, and type the keyword to find.

To save the link to a topic in the Help, select a topic and then select the Favorites tab. Click Add.

Index

Opens the Help file for the active Microsoft Dynamics GP component, with the Index tab active. To find information about a window that’s not currently displayed, type the name of the window, and click Display.

About this window

Displays overview information about the current window. To view related topics and descriptions of the fields, buttons, and menus for the window, choose the appropriate link in the topic. You also can press F1 to display Help about the current window.

Lookup

Opens a lookup window, if a window that you are viewing has a lookup window. For example, if the Checkbook Maintenance window is open, you can choose this item to open the Checkbooks lookup window.

Show Required Fields

Highlights fields that are required to have entries. Required fields must contain information before you can save the record and close the window. You can change the font color and style used to highlight required fields. On the Microsoft Dynamics GP menu, choose User Preferences, and then choose Display.

Printable Manuals

Displays a list of manuals in Adobe Acrobat .pdf format, which you can print or view.

What's New

Provides information about enhancements that were added to Microsoft Dynamics GP since the last major release.

Microsoft Dynamics GP Online

Opens a Web page that provides links to a variety of Web-based user assistance resources. Access to some items requires registration for a paid support plan.

Current implementation and upgrade information The most recent revisions of upgrade and implementation documentation, plus documentation for service packs and payroll tax updates.

User documentation and resources The most recent user guides, how-to articles, and white papers for users.

Developer documentation and resources The most recent documentation and updated information for developers.

Product support information Information about the Microsoft Dynamics GP product support plans and options that are available, along with information about peer support and self-support resources.

Services information Information about Microsoft Dynamics GP support, training, and consulting services.

Microsoft Dynamics GP Community Access to newsgroups, where you can ask questions or share your expertise with other Microsoft Dynamics GP users.

CustomerSource home page A wide range of resources available to customers who are registered for a paid support plan. Includes access to Knowledge Base articles, software downloads, self-support, and much more.

Customer Feedback Options

Provides information about how you can join the Customer Experience Improvement Program to improve the quality, reliability, and performance of Microsoft® software and services.

Send us your documentation comments

We welcome comments regarding the usefulness of the Microsoft Dynamics GP documentation. If you have specific suggestions or find any errors in this manual, send your comments by e-mail to the following address: bizdoc@microsoft.com.

To send comments about specific topics from within Help, click the Documentation Feedback link, which is located at the bottom of each Help topic.

Note: By offering any suggestions to Microsoft, you give Microsoft full permission to use them freely.

Chapter 1: Setup and routines

Use this information to install Financial Inflation Adjustment, and to select the accounts for which to perform inflation adjustment. You can perform the adjustment for a specific period of the fiscal years that you've set up in Microsoft Dynamics GP.

This information is divided into the following sections:

- [Selecting accounts](#)
- [Viewing the selected accounts](#)
- [Adjusting inflation for a period](#)
- [Entering the inflation adjustment index](#)

Selecting accounts

You can select the financial accounts to include in the inflation adjustment. You must adjust these accounts for inflation at the end of every fiscal period, based on the inflation percentage specified by the legal authorities.

To select accounts:

1. Open the Inflation Adjustment Account window.
(Cards >> Financial >> Account >> select an account >> Additional >> Inflation Adjustment)

2. Mark the Adjust for Inflation checkbox for the selected account.
3. Enter or select an account to be debited with the inflation adjustment amount, if any.
4. Enter or select an account to be credited with the monetary correction amount, if any.
5. Choose OK to save the values you've entered and return to the Account Maintenance window.

Viewing the selected accounts

You can print a report for the accounts that you have marked for inflation adjustment in the Chart of Accounts Report window. The Chart of Reports window has a report option for inflation adjustment. Use this option to first create a report option for the inflation adjustment report. Refer to the General Ledger documentation for more information on creating report options.

To view the selected accounts:

1. Open the Chart of Accounts Report window.
(Reports >> Financial >> Account)

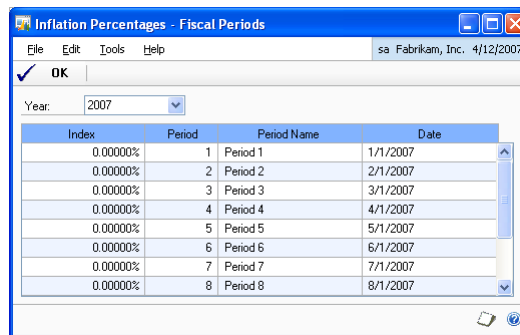

2. Select Inflation Adjustments in the Reports list. The Options field displays all the report options you have set up for Inflation Adjustment.
3. Select a report option, and choose Insert to insert it into the Print list. You can select multiple report options to print.
4. Choose Print to view and print reports based on the options you have selected.

Entering the inflation adjustment index

You can enter the adjustment index for each period of each fiscal year that you have set up in Microsoft Dynamics GP.

To enter the inflation adjustment index:

1. Open the Inflation Percentages - Fiscal Periods window.
(Microsoft Dynamics GP menu >> Tools >> Routines >> Financial >> Inflation Adjustments >> Adjustment Year expansion button)

2. Select the year for which to enter the adjustment indices. The scrolling window displays the details for all the periods set up for the selected year.
3. Enter the adjustment index for each period in the respective Index field.
4. Choose OK to close the window after entering the required indices.

Adjusting inflation for a period

Use the Inflation Adjustments window to adjust the inflation for a specific period of a fiscal year. You can enter the inflation percentage for a period in the Inflation Percentages - Fiscal Period window. Refer to [Entering the inflation adjustment index](#) on page 6 for more information.

To adjust inflation for a period:

1. Open the Inflation Adjustments window.
(Microsoft Dynamics GP menu >> Tools >> Routines >> Financial >> Inflation Adjustments)

2. Select the year for which to perform the adjustment. Select the Adjustment Year expansion button to open the Income Percentages - Fiscal Periods window, where you can enter or change the percentage for one or more periods of a year.
3. Select the adjustment period. The Inflation Index field displays the percentage you entered for the period in the Income Percentages - Fiscal Period window. You can change this value.
4. In the Results field, select Report to view a report before posting the adjustment. Choose Post to post the adjustment after verifying that the values on the report are accurate.
5. Enter the posting date to post the adjustment. The default date is the current user date.
6. Choose Adjust to view the report or to post the adjustment, depending on your selection in the Results field.
7. Choose Cancel to close the window without adjusting for inflation.

Chapter 2: Inquiries

Use this information to view the adjustments you posted. You can also view the journal entries that are created in General Ledger after posting the inflation adjustment.

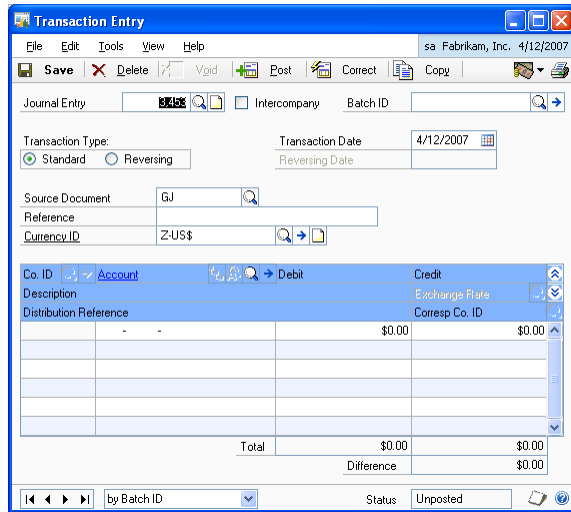

Financial Inflation Adjustment reports are available in the report list. You can select a report in the report list and add it to My Reports for easy access. Refer to the Microsoft Dynamics GP documentation for more information.

This information is divided into the following sections:

- [Viewing posted adjustments](#)
- [Posting adjustment entries from General Ledger](#)

Posting adjustment entries from General Ledger

When you post an inflation adjustment, journal entries are created in General Ledger. The source document ID for these journal entries is GLAJINF. You can view these journal entries in the Transaction Entry window (Transactions >> Financial >> General).

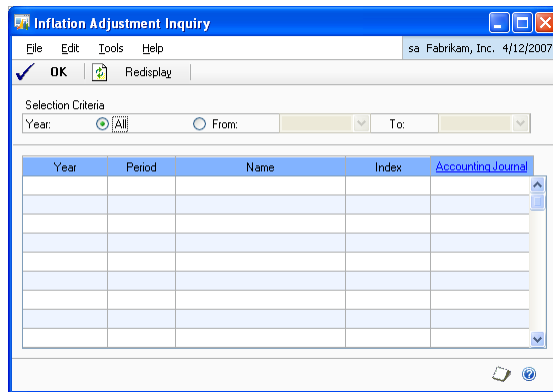

Use the Batch Entry window (Transactions >> Financial >> Batches), and select GLAJINF as the batch ID to post these entries from General Ledger. Refer to the General Ledger documentation for more information on posting batches from General Ledger.

Viewing posted adjustments

You can view the details of the adjustments that you posted to the General Ledger in the Inflation Adjustment Inquiry window.

To view posted adjustments:

1. Open the Inflation Adjustment Inquiry window.
(Inquiry >> Financial >> Inflation Adjustment)

2. Select to view the adjustments for all years, or enter a year range.
3. Choose Redisplay to display the adjustments for the selected years in the scrolling window. The scrolling window displays the year, period, inflation index and the adjustment amount for each adjustment.
4. Select an adjustment, and click the Accounting Journal link to open the Journal Entry Inquiry window. You can view the details of the journal entry created for the adjustment in General Ledger.
5. Choose OK to close the window.
