Application Services	Component Object Model (COM+)	Directory Services	Technical Documentation	General Services	Technical Documentation	Home Server	Technical Documentation	Presentation Layer Services	Technical Documentation	Supplemental Documents	Technical Documentation
	Component Object Model Plus (COM+) Event System Protocol		Open Data Protocol (ODAP)		Open Data Protocol (ODAP)		Transport Layer Security (TLS) Profile		Background Intelligent Transfer Service (BITS) Peer-Caching: Content Retrieval Protocol		
	Component Object Model Plus (COM+) Protocol		WCF-Based Encrypted Server Administration and Notification Protocol		WCF-Based Encrypted Server Administration and Notification Protocol		Session Layer Services		Background Intelligent Transfer Service (BITS) Peer-Caching: Peer Authentication Protocol		
	Component Object Model Plus (COM+) Queued Components Protocol		Distributed Component Object Model (DCOM) Remote Protocol		Distributed Component Object Model (DCOM) Remote Protocol		HomeGroup Protocol		Background Intelligent Transfer Service (BITS) Peer-Caching: Peer Discovery Protocol		
	Component Object Model Plus (COM+) Remote Administration Protocol		Peer Name Resolution Protocol (PNRP) Version 4.0		Peer Name Resolution Protocol (PNRP) Version 4.0		Peer-to-Peer Graphing Protocol		Background Intelligent Transfer Service (BITS) Upload Protocol		
	Component Object Model Plus (COM+) Tracker Service Protocol		Peer-to-Peer Grouping Security Protocol		Peer-to-Peer Grouping Security Protocol		Peer-to-Peer Graphing Protocol		Device Media Control Protocol		
	General Application Services		Remote Procedure Call Location Services Extensions		Remote Procedure Call Location Services Extensions		Remote Procedure Call over HTTP Protocol		Device Services Lightweight Remoting Protocol		
	ASP.NET State Server Protocol		Remote Procedure Call Protocol Extensions		Remote Procedure Call Protocol Extensions		Remote Procedure Call over HTTP Protocol		Device Session Monitoring Protocol		
	ManagedObject Interface Protocol		Publication Services Data Structure		Publication Services Data Structure		Remote Procedure Call over HTTP Protocol		Device Session Property Access Protocol		
	OLE Automation Protocol								Device Trust Agreement Protocol		
SOAP Over WebSocket Protocol Binding				Devices Profile for Web Services (DPWS): Size Negotiation Extension							
Tabular Data Stream Protocol				Network Time Protocol (NTP) Authentication Extensions							
Tracing HTTP Correlation Header Protocol				Remote Assistance Initiation over PNRP Protocol							
Web Services: Policy Assertions and WSDL Extensions				Remote Assistance Initiation Protocol							
Windows System Resource Manager (WSRM) Protocol				Remote Assistance Protocol							
Workflow Instance Management Protocol				Remote Experience Advertisement Protocol							
WS-ReliableMessaging Protocol: Advanced Flow Control Extension				Remote Network Driver Interface Specification (RNDIS) Protocol							
WS-ReliableMessaging Protocol: Reliable Request-Reply Extension				Routing and Remote Access Server (RRAS) Management Protocol							
Xpress Compression Algorithm				Service Control Manager Remote Protocol							
				Software Quality Metrics (SQM) Client-to-Service Version 1 Protocol							
Internet Information Services (IIS)				Software Quality Metrics (SQM) Client-to-Service Version 2 Protocol							
Internet Information Services (IIS) Application Host COM Protocol				SSDP: Networked Home Entertainment Devices (NHED) Extensions							
Internet Information Services (IIS) IISAdminBaseW Remote Protocol				Telemetry Protocol XML Schema							
Internet Information Services (IIS) IISInfo Remote Protocol				Trusted Platform Module (TPM) Virtual Smart Card Management Protocol							
Internet Information Services (IIS) ServiceControl Protocol				Update Agent Management Protocol							
				UWP Device and Service Templates: Internet Gateway Device (IGD) Extension							
Message Queuing				Windows Remote Registry Protocol							
Message Queuing Protocols Overview				Windows System Resource Manager (WSRM) Protocol							
Message Queuing (MQAO): ActiveX Client Protocol											
Message Queuing (MQAO): Binary Reliable Message Routing Algorithm				Group Policy							
Message Queuing (MQAO): Common Data Model and Processing Rules				Group Policy Protocols Overview							
Message Queuing (MQAO): Data Structures				Group Policy: Audit Configuration Extension							
Message Queuing (MQAO): Directory Service Change Notification Protocol				Group Policy: Central Access Policies Protocol Extension							
Message Queuing (MQAO): Directory Service Discovery Protocol				Group Policy: Core Protocol							
Message Queuing (MQAO): Directory Service Protocol				Group Policy: Deployed Printer Connections Extension							
Message Queuing (MQAO): Directory Service Schema Mapping				Group Policy: Encrypting File System Extension							
Message Queuing (MQAO): Message Queuing Binary Protocol				Group Policy: Firewall and Advanced Security Data Structure							
Message Queuing (MQAO): Queue Manager Client Protocol				Group Policy: Folder Redirection Protocol Extension							
Message Queuing (MQAO): Queue Manager Management Protocol				Group Policy: Internet Explorer Maintenance Extension							
Message Queuing (MQAO): Queue Manager Remote Read Protocol				Group Policy: IP Security (IPsec) Protocol Extension							
Message Queuing (MQAO): Queue Manager to Queue Manager Protocol				Group Policy: Name Resolution Policy Table (NRP) Data Extension							
Message Queuing (MQAO): SOAP Reliable Messaging Protocol (SRMP)				Group Policy: Network Access Protection (NAP) Extension							
				Group Policy: Preferences Extension Data Structure							
Transaction Processing Services				Group Policy: Registry Extension Encoding							
Transaction Processing Services Protocols Overview				Group Policy: Scripts Extension Encoding							
MSDTC Connection Manager: OleTx Management Protocol				Group Policy: Security Protocol Extension							
MSDTC Connection Manager: OleTx Multiplexing Protocol				Group Policy: Software Installation Protocol Extension							
MSDTC Connection Manager: OleTx Transaction Internet Protocol				Group Policy: Wireless/Wired Protocol Extension							
MSDTC Connection Manager: OleTx Transaction Protocol											
MSDTC Connection Manager: OleTx Transaction Protocol Logical Unit Maintenance Extension				Monitoring Services							
MSDTC Connection Manager: OleTx Transports Protocol				Corporate Error Reporting Version 2.0 Protocol							
MSDTC Connection Manager: OleTx XA Protocol				Eventlog Remoting Protocol							
Transaction Internet Protocol (TIP) Extensions				Eventlog Remoting Protocol Version 6.0							
				Live Remote Event Capture (LREC) Protocol							
				Performance Counter Query Protocol							
				Performance Logs and Alerts Protocol							
Collaboration				Server Management							
Desktop Chat Protocol				Blocked State Configuration Pull Model Protocol							
Desktop Clipboard Protocol				Domain Name Service (DNS) Server Management Protocol							
Digital Living Network Alliance (DLNA) Networked Device Interoperability Guidelines: Microsoft Extensions				Server and File Management Web APIs Protocol							
H.245 Protocol: Microsoft Extensions				Server Service Remote Protocol							
Messenger Service Remote Protocol				Task Scheduler Service Remoting Protocol							
Microsoft NetMeeting Protocol				W32Time Remote Protocol							
NT LAN Manager (NTLM) Authentication: Network News Transfer Protocol (NNTP) Extension				Workstation Service Remote Protocol							
NT LAN Manager (NTLM) Authentication: Simple Mail Transfer Protocol (SMTP) Extension											
Real-Time Transport Protocol (RTP/RTCP): DTMF Digits, Telephony Tones and Telephony Signals Data Extensions				WINS Management							
Real-Time Transport Protocol (RTP/RTCP): Microsoft Extensions				Remote Administrative Interface: WINS							
Real-Time Transport Protocol (RTP/RTCP): Redundant Audio Data Extensions											
Remote Rendering Server Protocol Version 2.0				Windows Management							
Session Description Protocol (SDP) Extensions				Windows Management Protocols Overview							
Session Initiation Protocol Extensions				PowerShell Remoting Protocol							
Simple Mail Transfer Protocol (SMTP) AUTH Extension for SPNEGO				Web Services Management Protocol Extensions for Windows Server 2003							
Telephony API Internet Locator Service Protocol				Web Services Management Protocol Extensions for Windows Vista							
Telephony Remote Protocol				Windows Management Instrumentation Encoding Version 1.0 Protocol							
				Windows Management Instrumentation Remote Protocol							
Digital Rights Management				Windows Server Update Services							
Digital Rights Management License Protocol				Windows Server Update Services Protocols Overview							
Windows Media Digital Rights Management (WM DRM): MTP Command Extension				Windows Update Services: Client-Server Protocol							
Windows Media Digital Rights Management (WM DRM): Network Devices Protocol				Windows Update Services: Server-Server Protocol							
Windows Media Digital Rights Management for Network Devices (WM DRM-ND): Registrar Initiation Protocol											
				Technical Documentation							
Media Streaming Server				Windows Deployment Services Control Protocol							
Media Streaming Server Protocols Overview				Windows Deployment Services: Multicast Application Protocol							
Media Stream Broadcast (MSB) Protocol				Windows Deployment Services: Multicast Session Initiation Protocol							
Media Stream Broadcast Distribution (MSBD) Protocol				Windows Deployment Services: Multicast Transport Protocol							
Microsoft Media Server (MMS) Protocol				Windows Deployment Services: Operation System Deployment Protocol							
Real-Time Streaming Protocol (RTSP) Windows Media Extensions											
Remote Media Streaming Initiation Protocol											
Smooth Streaming Protocol											
Windows Media HTTP Push Distribution Protocol											
Windows Media HTTP Streaming Protocol											
Windows Media Log Data Structure											
Technical Documentation											
Automatic Bluetooth Pairing Protocol											
Device Registration Discovery Protocol											
Device Registration Enrollment Protocol											
Enterprise Client Synchronization Protocol											
Mobile Device Enrollment Protocol											
Mobile Device Management Protocol											
Near Field Proximity: Bidirectional Services Protocol											
Near Field Proximity: Sharing Protocol											
Tethering Control Channel Protocol											
UWP Device and Service Templates: Media Property and Compatibility Extensions											
Wi-Fi Direct (WFD) Application to Application Protocol											

Includes selected Open Specifications documents for Windows.
