

You are the master of all you do.

Deliver your best work—at the office or on the go. Capture people's attention with great visuals. Inspire them with great ideas. Stay connected to your files and your colleagues—whether you're working across a cubicle wall or across an ocean.

Give your ideas visual impact

with new and improved picture formatting tools, such as color saturation and professional-quality artistic effects. Express yourself with a wide range of new, customizable themes and SmartArt® graphics.

Master the art of collaboration

Co-authoring capabilities in Word 2010, PowerPoint® 2010, OneNote® 2010, as well as Excel® Web App and OneNote® Web App, give you the power to edit the same file at the same time as others on your team—even when everyone is working from different locations.

Get work done on your own terms.

View, edit, and share content from virtually any computer with an Internet connection using Microsoft Office Web Apps. Take action on-the-go with Microsoft Office Mobile 2010 and your Windows® phone. And access your Microsoft® SharePoint® 2010 content whether you're online or not, with Microsoft® SharePoint® Workspace 2010.
