

# Mindtree gets a productivity boost with Office 365

## Challenge

Mindtree was looking for modern tools to boost productivity, and enable its workforce to experience the modern global workplace.

## Solution

It migrated their on-site emails on Exchange Server to Microsoft cloud offering, Office 365, which seamlessly synchronizes on all the smart devices while also offering employees a range of productivity apps.

## Results

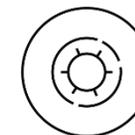

The new solution has helped in revitalizing productivity, provide a truly mobile experience, and meet their strict compliance standards for security.
