

Microsoft Machine Learning Server

ANALYZE DATA
WHERE IT LIVES

INNOVATE
USING AI

BUILD MISSION-
CRITICAL APPS FASTER

Organizations struggle to take their analytics to production, often requiring months to rewrite models before it's possible to use them

87%
of data scientists
report their results are
not always deployed¹

Microsoft Machine Learning Server enables you to scale experiments to production systems quickly and effectively and deploy them in dashboard, web, desktop, and mobile applications and backend systems

Reuse your code and skills in multiple languages to avoid rewriting models and then deploy across multiple platforms

1,01
