## TechEd 2008 North America DVD Silver Light 2 Incompatibility Issue Resolution

Recently Microsoft has released Silver Light 2 which is not compatible with the beta version of Silver Light that the TechEd North America DVD user interface was built with. You can continue to access the content from TechEd in the following way:

### DVD Work-around

To access the recorded sessions and PowerPoint files from your DVD set please take the following steps:

#### Contents

TechEd Developers: Disc 1-5

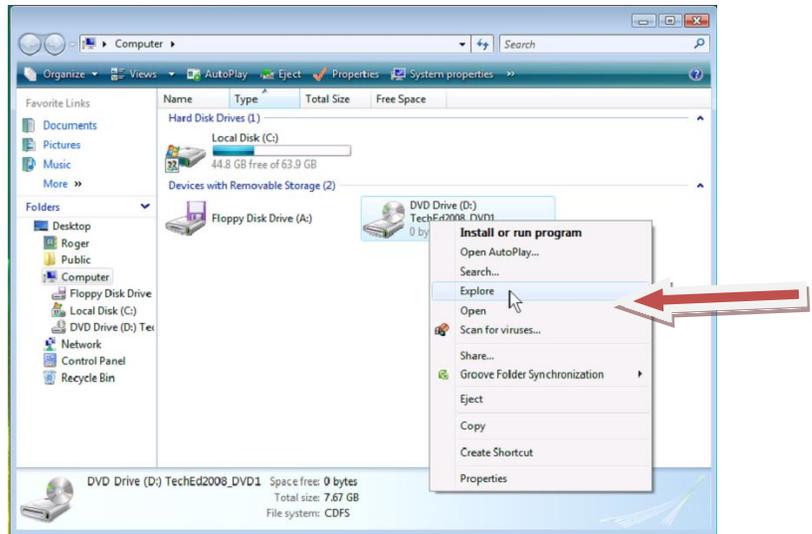

- Disc 1: Architecture, Business Intelligence, Infrastructure for Developers, Windows Mobile, Bill Gates Keynote, Unified Communications, Women in Technology Luncheon
- Disc 2: Database Platform, Development Practices, Dynamics
- Disc 3: Windows Embedded, Office and SharePoint, SOA and Business Processes
- Disc 4: Tools and Languages, Windows and Frameworks
- Disc 5: Web and User Experience  
TechEd IT Professionals Disc 6-9
- Disc 6: Application Platform for Developers, Business Intelligence, Windows Client, Database Platform, Bob Muglia Keynote, Women in Technology Luncheon
- Disc 7: Dynamics, Windows Embedded, Identity and Access, Microsoft IT, SOA, Sponsor Sessions, Windows Server Infrastructure
- Disc 8: Windows Mobile, Management, Security, Specialized Servers
- Disc 9: Office and SharePoint, Unified Communications, Virtualization

#### Instructions

Step 1: From the start menu click on "Computer"

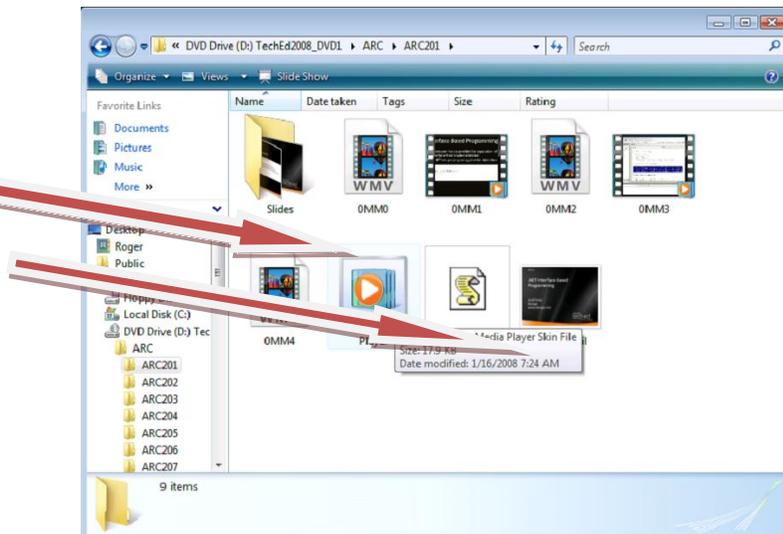

Step 2: Right click the DVD and select “Explore” from the option menu

Step 3: Select the session folder you wish to view based on the session code (see list below) and select either

- A) “Player” to view the session recording, or
- B) The PPTX folder to view the PowerPoint file

### TechEd Developers Session List

Disc	Code	Title
1	ARC201	Decoupling Contract from Implementation: Microsoft .NET Interface-Based Programming End-to-End
1	ARC202	Architectures: The Good, the Bad, and the Ugly (Repeats on 6/5)
1	ARC203	Software Development Life Cycle: Applying Service Orientation to the Development Process
1	ARC204	Life beyond Distributed Transactions: An Apostate's Opinion
1	ARC205	Architects: How Are They Made? (Repeats on 6/5)
1	ARC206	The Irresistible Forces Meet the Moveable Objects
1	ARC207	Pragmatic Architecture: The Role of an Architect
1	ARC208	Why Software Sucks (Repeats on 6/5)
1	ARC209	Understanding Software-Plus-Services: A Perspective
1	ARC301	Data Protection with Cryptography of Microsoft .NET Framework 3.5 and CryptoAPI: Next Generation
1	ARC302	Discussing Proven Practices for Using Smart Client Software Factory

1	ARC303	Designing for Testability: Bridging the Gap between Design and Testing in Object-Oriented Software (Repeats on 6/6)
1	ARC304	User Experience (UX): Selecting the Right Client Technology
1	ARC305	Building Next Generation Data Access Layers with the ADO.NET Entity Framework (Repeats on 6/5)
1	ARC306	Choosing Communication Styles: SOAP/WS-* vs. REST
1	ARC307	Using Sexy Extensibility Patterns to Build Long-Lived, Highly Reusable Applications
1	ARC308	Evolving Reusable Libraries: Microsoft .NET Framework Base Class Libraries, Lessons Learned
1	ARC310	The Science Behind Creating a Great User Experience (Repeats on 6/5)
1	ARC311	Pragmatic Data Architectures: Six Measurable Attributes
1	ARC312	The Architecture of Rich Internet Applications: The Microsoft Silverlight 2.0 Story
1	ARC401	Data Access Layer: Architectural Concerns for Object/Relational Mappers (O/R-M) with Examples in Nhibernate
1	ARC402	Architectural Considerations for the ASP.NET MVC Framework
1	ARC403	Separation of Concerns: New Practices for Decreasing Coupling and Raising Cohesion
1	ARC404	Web Scalability via Asynchronous Systems Architecture
1	BIN201	Report Authoring with Microsoft SQL Server 2008 Reporting Services
1	BIN301	New Data Visualization Techniques with Microsoft SQL Server 2008 Reporting Services
1	BIN302	Data Integration Best Practices in Microsoft Office PerformancePoint Server 2007 Planning
1	BIN303	Data Mining from an Application Developer's Perspective
1	BIN304	Microsoft Office Excel and Microsoft SQL Server Analysis Services: An In-Depth Look at Integration
1	BIN305	Taking Your Web Application Design to the Next Level with Data Mining
1	BIN306	Microsoft Office PerformancePoint Server 2007 Technical Overview
1	BIN307	A Developer's Guide to the Microsoft Business Intelligence Stack
1	BIN308	Designing High Performance Cubes in Microsoft SQL Server 2008 Analysis Services
1	BIN309	Implications of Custom Authentication for Microsoft Business Intelligence
1	BIN310	Not Just Spreadsheets: Microsoft Office and Excel As a Business Intelligence Development Platform
1	BIN311	Advanced Dashboard Creation with Microsoft Office PerformancePoint Server 2007
1	BIN312	Microsoft SQL Server 2008 Reporting Services and Integration with Microsoft Office SharePoint Server 2007
1	BIN313	Inside Microsoft: How Microsoft IT Used Excel Services to Create an Office Business Application That Supports Microsoft's Top Executives
1	BIN314	Microsoft IT Design Patterns Used to Deliver Agile Business Intelligence Solutions for Microsoft Executives
1	BIN401	Optimizing Query Performance in Microsoft SQL Server 2008 Analysis Services
1	BIN402	Building and Deploying Advanced Microsoft Office PerformancePoint Server 2007 Planning Applications
1	BIN403	Performance Tuning Microsoft SQL Server Integration Services 2005 and 2008
1	BIN404	The Subtle Powers of Data Mining Algorithms
2	DAT201	Introduction to Microsoft SQL Server Data Services
2	DAT202	Microsoft Code Name Project "Velocity" for Scalable and Available Applications
2	DAT301	LINQ to DataSet
2	DAT302	Best Practices for Exception Handling and Defensive Programming in Microsoft SQL Server 2005 and 2008
2	DAT303	Microsoft SQL Server Data Solutions Using Microsoft Office Access
2	DAT305	Revolutionize Your Data Programming with Microsoft SQL Server Table Value Parameters
2	DAT306	Automating and Analyzing with SQL Trace
2	DAT307	Developing Applications with Microsoft SQL Server Data Services

2	DAT308	PowerShell Scripting in Microsoft SQL Server 2008
2	DAT310	Community Database Software Development
2	DAT311	Safe Dynamic SQL
2	DAT312	Grouping Sets and MERGE in Microsoft SQL Server 2008
2	DAT313	New T-SQL Programmability Features in Microsoft SQL Server 2008
2	DAT314	Date and Time Manipulation in Microsoft SQL Server
2	DAT315	Choosing the Right Encryption Methodology
2	DAT316	Building Location-Aware Applications in Microsoft SQL Server 2008: Building Spatial Applications
2	DAT317	New Unstructured Data Storage Solutions in Microsoft SQL Server 2008
2	DAT318	Consistency of Reads in Microsoft SQL Server
2	DAT319	Database Related Application Analysis and Conversion: Power Builder (Sybase to Microsoft SQL Server)
2	DAT320	Building Location-Aware Applications in Microsoft SQL Server 2008: Introducing the Spatial Data Types
2	DAT321	Microsoft SQL Server 2008 Integrated Full-Text Search (IFTS)
2	DAT322	Real Time SQL Data Integration
2	DAT323	Handling Graphs, Trees, and Hierarchies in Microsoft SQL Server
2	DAT324	Managing Unstructured and Semi-Structured Data in Microsoft SQL Server 2008: Technical Overview
2	DAT325	Unlocking the Power of Microsoft SQL Server Compact Edition 3.5
2	DAT326	Supporting Microsoft SQL Server 2008 within Microsoft Visual Studio Team System Database Edition
2	DAT401	End-to-End Tracing with Microsoft SQL Server 2008 and ADO.NET
2	DAT402	SQL Tricks: Insights from Microsoft IT
2	DAT403	Windows Management Instrumentation (WMI) for the Command Line DBA
2	DAT404	Practical Microsoft SQL Server Security for Architects and Developers
2	DAT405	T-SQL Querying: Tips and Techniques for Microsoft SQL Server 2005 and 2008
2	DAT406	Microsoft SQL Server Coding for Maximizing Concurrency in Applications
2	DAT407	Version-Stamping of Database Objects Using SQLCMD and Microsoft SQL Server Management Studio: Insights from Microsoft IT
2	DAT409	Deep Dive into XQuery and XML in Microsoft SQL Server: Common Problems and Best Practice Solutions
2	DVP201	Best Practices for Managing Projects with Microsoft Visual Studio Team System
2	DVP202	Microsoft Active Directory Federation Services
2	DVP203	Applying Feature-Driven Development Techniques to Microsoft Visual Studio Team System
2	DVP204	End-to-End Software Change and Configuration Management
2	DVP205	The Microsoft Parallel Computing Initiative: Bringing Concurrency to the Masses
2	DVP206	TechEd Daily Scrum!
2	DVP207	The Gentle Art of Pair Programming
2	DVP301	Making Your Test Lab Obsolete with Team Test and Virtualization
2	DVP302	How to Review Your Code and Test for Security Bugs
2	DVP303	From Zero to N-Tier in 75 Minutes
2	DVP304	Parallelize Your Microsoft .NET Framework-Based Applications with Parallel Extensions
2	DVP305	Ten Ways to Improve Your Application Code
2	DVP306	ADO.NET Entity Framework: Application Patterns
2	DVP307	Building Web Services with the Service Factory Modeling Edition
2	DVP308	From Gleam to Grave: Managing the Complete Lifecycle of a Software System

2	DVP309	Lessons Learned in Programmer/Unit Testing
2	DVP310	Agile Database Development
2	DVP311	Enterprise Scrum with Microsoft Visual Studio Team Foundation Server
2	DVP312	ASP.NET Scaling Strategies and Tactics
2	DVP313	Understanding Branching and Merging in Microsoft Visual Studio Team System Team Foundation Server
2	DVP314	Introduction to Mock Objects and Advanced Unit Testing
2	DVP315	Understanding Claims-Based Identity
2	DVP316	Simplify Parallel Application Debugging and Profiling with Concurrency Tools in Microsoft Visual Studio
2	DVP317	Create Your Own Providers for the Ultimate Flexibility
2	DVP318	Agile Talk on Agility
2	DVP319	Realistic Software Testing with Microsoft Visual Studio Team System
2	DVP320	How I Learned to Stop Worrying and Love Threat Modeling
2	DVP321	Top Ten Strategies to Secure Your Code
2	DVP322	Making Security Testing Part of Everyday Development
2	DVP402	"Design Patterns" in Dynamic Languages
2	DYN203	Introduction to Microsoft Dynamics CRM
2	DYN207	Utilizing Windows Workflow Foundation for Automating Business Processes in Microsoft Dynamics AX 2009
2	DYN208	Microsoft Dynamics AX Enterprise Portal and Role Centers
2	DYN209	Building Business Integrations with Microsoft Dynamics AX 2009
2	DYN210	BI and Reporting Features in Microsoft Dynamics AX 2009
2	DYN301	Creating Composite Applications with Microsoft Dynamics CRM
2	DYN302	Building SaaS and On-Premise Line-of-Business Applications with Microsoft Dynamics Application Development Platform
2	DYN305	Enabling Collaboration with Microsoft SharePoint and Microsoft Dynamics CRM
2	DYN306	Building Business Intelligence with Microsoft Dynamics CRM
2	DYN307	Building Workflow Processes with Microsoft Dynamics CRM and Microsoft Dynamics CRM Online
3	EMB201	Introduction to Windows Embedded for Point of Service
3	EMB202	Beyond Windows XP Embedded
3	EMB203	Introduction to Point of Service for .NET
3	EMB204	Choosing the Right API for Your Windows Embedded CE 6.0 Application
3	EMB205	Introduction to Windows XP Embedded
3	EMB206	The New Windows Embedded Standard
3	EMB207	Microsoft .NET Micro Framework 3.0 Preview
3	EMB208	Become a .NET Micro Framework Embedded Developer in 60 Minutes
3	EMB209	Microsoft .NET Micro Framework in Action
3	EMB210	Become a Windows Embedded CE Developer in 60 Minutes
3	EMB301	Windows Embedded CE: All You Wanted to Know about Its Build Process
3	EMB302	Beyond Maps with Windows Embedded CE Platform
3	EMB303	BSPs and Drivers in Windows Embedded CE
3	EMB304	Build Small and Secure Devices with Windows XP Embedded
3	EMB305	Windows Embedded CE 6.0 Kernel Architecture and Memory Management
3	EMB306	Protect a Windows XP Embedded Image Using Write Filters

3	EMB307	Windows Embedded CE and Robotics
3	EMB309	Creating Custom Components for Windows XP Embedded
3	EMB310	Windows XP Embedded: Remote Debugging and Recovery
3	EMB311	Migrate to Windows Embedded CE 6.0 Architecture
3	EMB312	Device Profiles for Web Services (DPWS) on Microsoft .NET Micro Framework
3	EMB313	Choose the Right Boot Technology in Windows XP Embedded
1	INF250	Windows Server 2008 Overview
1	INF301	Application Development for High Performance Computing on the Windows Platform
1	INF302	Future of Multi/Many-Core and the Convergence of Client and Cluster in Parallel Computing
1	INF367	Windows Server 2008 Hyper-V: Security and Best Practices
1	INF375	Securing and Tuning Applications for Microsoft Internet Information Services 7.0
1	MBL201	Mobile Web Design with XHTML and .Mobi Standards
1	MBL202	Maximizing the Usability and Compatibility of Your Mobile Microsoft Visual C++ Application
1	MBL301	Accessing RESTful Web Data Services in the Microsoft .NET Compact Framework: The Lightweight Alternative to SOAP
1	MBL302	Building Windows Mobile Applications That Work with Windows Vista Sync Center
1	MBL303	Windows Communication Foundation on Devices
1	MBL304	Advanced Object-Oriented Data Access with the Microsoft .NET Compact Framework 3.5 and Microsoft SQL Server Compact Edition 3.5
1	MBL305	Microsoft Silverlight UX for Mobile Devices
1	MBL306	Peer-to-Peer Windows Mobile Software
1	MBL307	Unit Testing for Devices: The Holy Grail, or Something to Use in Your Day-to-Day Work?
1	MBL308	Sharing Assets between the Microsoft .NET Compact Framework and the Microsoft .NET Framework
1	MBL309	What's New in the Windows Mobile Line of Business Solution Accelerator 2008
1	MBL310	An Introduction to LINQ on Devices
1	MBL311	Developing for the Windows Mobile 6.1 Home Screen
1	MBL312	Microsoft Silverlight on Mobile Devices
1	MBL313	Using Microsoft DirectDraw in Windows Mobile Applications
1	MBL314	Mobilizing Your Web Applications with Microsoft Internet Explorer Mobile and AJAX
1	MBL315	Personal Area Networking on Windows Mobile
1	MBL401	What's New in the Microsoft .NET Compact Framework 3.5
1	MBL402	Creating a Compelling and Attractive UI When Developing for Windows Mobile and the Microsoft .NET Compact Framework
1	MBL403	Building Custom Sync Providers for the Microsoft Sync Framework
1	MBL404	Microsoft SQL Server 2005 Compact Edition Ultimate Performance Tuning
1	MBL405	The New Windows Mobile Enterprise Architecture
3	OFC201	Building Powerful Applications for the Microsoft Office System Using Microsoft Visual Studio Tools for the Microsoft Office System (VSTO)
3	OFC202	Introduction to SharePoint Development with Microsoft Visual Studio 2008 (Repeats on 6/4)
3	OFC202R	Introduction to SharePoint Development with Microsoft Visual Studio 2008 (Repeated from 6/3)
3	OFC203	Developing Your First Office Business Application: From the Client to SharePoint and Beyond
3	OFC301	Tunneling through Microsoft Office InfoPath Form Services: Wormholes, Parallel Universes, and Higher Dimension Views
3	OFC302	Use the Open XML SDK and LINQ to Program the Microsoft Office Open XML File Formats

3	OFC303	Light Up Your SharePoint Web Site with Microsoft Silverlight and AJAX
3	OFC304	Integrating Windows Presentation Foundation and Windows Communication Foundation into Your Office Business Applications
3	OFC305	Simplifying SharePoint Web Part Development
3	OFC306	Microsoft IT: Lessons Learned Designing, Developing, and Deploying Microsoft Office SharePoint Server 2007 Solutions for Publishing Portals within Microsoft
3	OFC307	Building High Performance Solutions on Microsoft Office SharePoint Server 2007
3	OFC308	Windows SharePoint Services: Custom Field Types
3	OFC309	Building Document Management Solutions Using SharePoint Content Types
3	OFC310	Line-of-Business Integration Using Microsoft Office SharePoint Server 2007 and Microsoft Office Project Server 2007
3	OFC312	Project Initiation Using Microsoft Office InfoPath and Windows Workflow Foundation
3	OFC313	Microsoft Office Live Forms Applications with Microsoft Office InfoPath
3	OFC315	Building Federated Search Connectors with Microsoft Search Server 2008 and Microsoft Office SharePoint Server 2007
3	OFC316	SharePoint Tools for Style: How to Start Branding SharePoint
3	OFC317	Take It With You!: Building Occasionally-Connected SharePoint Applications Using the Microsoft Sync Framework
3	OFC318	XOML, XOML, Everywhere: Building Custom Workflow Editors for SharePoint
3	OFC401	SharePoint Workflow Activities
3	OFC402	How to Use Microsoft Office SharePoint Server 2007 As an Application Development Architecture
3	OFC403	Creating Solutions with the Business Data Catalog
3	OFC404	Turning SharePoint Data into Microsoft Office Documents: A Deep Dive into SharePoint Document Assembly Using Open XML
3	OFC405	User-Defined Functions in Microsoft Office Excel 2007: New XLL Capabilities and Client/Server User-Defined Functions
3	SOA201	Microsoft and Mainframes, Taming the Beast, Empowering Developers, Solving Mysteries
