

Getting started with Red Hat® on Azure is easier than you think

Migrate your existing Red Hat subscriptions or simply pay as you go.

Can I use my existing Red Hat subscriptions on Azure?

Yes.

Azure is part of Red Hat's Certified Cloud Service Provider program, so **all of the benefits of your current subscription transfer with you**, including your direct relationship with Red Hat sales and support.

What Red Hat technologies can I use with my Cloud Access benefits?

A broad selection.

Including:

- Red Hat JBoss® Enterprise Application Platform
- Red Hat JBoss Web Server
- Red Hat Gluster Storage
- Red Hat Ceph Storage
- Red Hat OpenStack® Platform
- Red Hat OpenShift Container Platform
- Red Hat CloudForms
- Red Hat Enterprise Linux Atomic Host
- Ansible by Red Hat

What if I don't have a Red Hat subscription?

No problem.

You can use the pay-as-you-go model for Red Hat Enterprise Linux on Azure to get started right away with no upfront costs. To learn more about PAYG, [visit our overview](#).

Visit the Red Hat Cloud Access information page for full details about migrating your subscriptions to Microsoft Azure.
