

Microsoft® Broadband Networking

5-Port Switch | MN-150

Extend your network

The Microsoft 10/100 Ethernet 5-Port Switch makes it easy to connect as many as four additional computers to your home or small-office network without compromising network performance. The device can be used as a switch or a hub.

Benefits

- Add up to four additional computers to your Ethernet network.
- Share files and printers with other computers on your network at up to 100 Mbps.
- Play games with multiple players on the Internet and within your own network.

Features

- Optimized network speeds with dedicated bandwidth for each port
- Support for both 10 Mbps Ethernet and 100 Mbps Fast Ethernet hardware
- Fast network expansion without the need for configuration
- Versatility as either a switch or a hub
- Diagnostic LEDs to monitor network status
- Toll-free product support, 24 hours a day, 7 days a week

Included in the Box

- Microsoft Ethernet 5-Port Switch
- 3.8 V power adapter
- User's Guide

10/100 Ethernet 5-Port Switch MN-150

Extend your network

System Requirements

- Computer with 10 Mbps Ethernet or 100 Mbps Fast Ethernet network adapter
- 120V AC power outlet

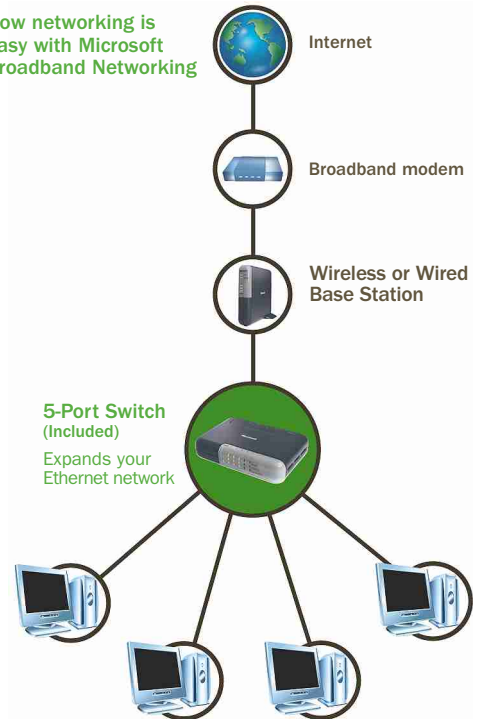

Add multiple computers to your network without compromising performance

With the Microsoft 10/100 Ethernet 5-Port Switch, you can easily add up to four additional computers to your home or small office network without compromising network performance.

- Expands your network in seconds.
- No configuration necessary.
- Compact design saves desktop space.
- Connects up to four additional computers to your Ethernet network (adapters sold separately).
- Allows you to share files and printers with other computers on the network.
- Works as a switch or hub.
- Includes diagnostic LEDs to monitor network status.
- Lets you play games with multiple players within your own network.
- Supports Ethernet data speeds of 10 Mbps or 100 Mbps.
- Supports straight-through (MDI-X) and crossover (MDI) cables on all ports.
